

WOMEN GIVEN 180 YEARS IN TORSO CRIME

Chicago Judge Pro- nounced Sentence This Afternoon

BULLETIN
Chicago, Aug. 8.—(AP)—Prison sentences of 180 years each were meted out today to Mrs. Blanche Dunkel and Mrs. Evelyn Smith for murdering Ervin J. Lang.

Sentence was passed by Judge Cornelius J. Harrington, who yesterday finished hearing the trial of the pair without a jury and found them guilty of slaying the 28-year-old grocery clerk who became the lover of his mother-in-law, Mrs. Dunkel.

The state had asked the electric chair for both. Such a fate for a woman would have been without precedent in Illinois.

Judge Harrington directed that the women be placed in solitary confinement every July 6, the anniversary of their crime. He said they could not be paroled until they served 104 years.

Indifferent to Chair.
He said they showed cold indifference to death by the electric chair. Such death, he said, would be "a merciful end for you. That would be a better punishment than that which I am going to mete out to you."

To each of the prisoners he said, "Under the penalty I am going to give, you will be suffering a living death."

Mrs. Dunkel was in a state of collapse. Tears streamed down her face. She never raised her head and her chin quivered nervously. She dabbled at her face with a handkerchief.

Mrs. Smith stared boldly about and smiled at photographers. The prisoners were led out of the courtroom by four bailiffs.

There was a concerted "A-ah" from the crowd when the sentence was read.

Chicago, Aug. 8.—(AP)—Two women who conspired to murder their son-in-law of one awaited today a judge's decision whether their penalty would be death in the electric chair or life imprisonment.

One of the convicted killers, Mrs. Blanche Dunkel, who admitted she became Ervin Lang's mistress after his wife, her daughter Mallie, died, sobbed remorsefully.

"It looks like they'll give us the chair," she said.

The other, Mrs. Evelyn Smith, who told of being "sap enough" to anesthetize, strangle and butcher Lang because her friend "hounded" her, commented on the possible sentences with an unemotional:

"Oh, I'm not fussy."

Acting Chief Justice Cornelius J. Harrington in Criminal court found the two women "guilty of murder as charged in the indictment" yesterday.

Each Blamed Other
Mrs. Dunkel and Mrs. Smith each had a turn on the witness stand yesterday and put the blame for the slaying on the other. Each admitted detailed confessions read in court.

Public Defender Benjamin Bachrach offered little in their defense. He said the crime was such that it could not have been conceived by persons of normal mind.

Mrs. Smith protected her Chicago laundryman husband, Harry Dunkel, who has not been captured, in her testimony. She said she called him to help her dispose of the body, but he was unable to watch the actual disposition.

A woman never has been electrocuted in Illinois.

Post and Rogers in Mild Disagreement

Juneau, Alaska, Aug. 8.—(AP)—Wiley Post and Will Rogers mildly disagreed today over plans for resuming their flight over Alaska in Post's new red pontoon-equipped monoplane.

Post, the round-the-world flier, warned for fishing with light tackle. Rogers, the cowboy philosopher, urged a quick take-off for Nome so he could "lasso a reindeer."

Inasmuch as weather forecasts were unfavorable, Rogers said he would compromise and "let Wiley do his fishing."

The two, flying in the plane Post has announced he will use in a flight to Moscow, arrived here yesterday from Seattle, a trip they made in eight hours and 15 minutes.

IS CHAMPION BULL

Great Falls, Mont.—Don Avel the 16th, a two-year-old bull owned by J. C. Andras & Sons of Manchester, Ill., was adjudged champion of the National Hereford show. Two hundred and forty-seven Herefords from 13 states and Canada were entered.

Hot In Georgia

Dalton, Ga., Aug. 8.—(AP)—For three weeks Mrs. Ed Smith thought nothing of some eggs she had placed on top of a cupboard in the kitchen of her farmhouse near Tunnel Hill. Then she heard a "cheep-cheep" and finally traced the sound to the forgotten egg basket. A fluffy baby chick had been hatched in the 104° degree heat.

BIG STEEL BALL TO STORE GAS IS CONSTRUCTED

I. N. U. Co. Building Pressure Holder at Site of Old Gas Plant

The Illinois Northern Utilities Company are building a huge steel ball tank at the former gas plant site west of the Illinois Central right-of-way, which when completed will supply gas to several cities. The Chicago Bridge & Iron Works are the contractors and a force of expert steel workers expect to have the sphere completed and ready for use before September 1. The steel ball is known as a Hortonsphere and is a high pressure gas holder, which when completed and ready for operation, will supplant the present storage holder which has been in service since 1902. The old holder will be razed, the entire gas supply for Dixon, Polo and Oregon passing through the sphere.

The large steel ball assures a steady supply of illuminating gas which will be independent of weather conditions. It has a capacity of 100,000 cubic feet at 50 pounds pressure or 29,400 cubic feet. The sphere is placed on four steel legs resting on heavily reinforced concrete piers, the holder alone weighing 29,760 pounds.

90 Percent True Weld
The sphere has the appearance of a patch work quilt in its assembly. A total of 54 sections of half inch steel plates are used in the assembly, all of the joining parts being subjected to four separate welding operations to insure a 90 percent true weld. There are 1,060 feet of welded seam in the steel ball.

Gas will come from the Sterling central plant through the pipe line system to the Hortonsphere and will be distributed under pressure to the smaller towns in this vicinity. In the event of an emergency when it may become necessary to close valves in the supply from Sterling to Dixon, the new improvement will provide uniform storage and pressure for a sufficient period to permit the making of repairs and will provide an assured supply of gas independent of weather conditions.

L. G. Adams, superintendent of the gas division of the Utilities Company stated today. When completed the huge sphere will be treated to a coating of aluminum paint.

Spend \$30,000,000 to Buy Sub-Marginal Land

Washington, Aug. 8.—(AP)—Re-settlement administration officials said today they expect to spend about \$30,000,000 to buy from 3 million to 10 million acres of sub-marginal land by next January 1.

Land purchases will be carried out through the administration's utilization division, which took over the work begun by the land program division of the emergency relief administration.

The lands will be used principally, officials said, for forestry, grazing and recreation. Some will be used for wild life conservation, while more than 1,000,000 acres may be added to Indian reservations.

TO OPERATE ELEVATORS

Chicago—Elevators of the Chicago Elevator Properties Inc., Rosenbaum Grain Corporation subsidiary, were ordered turned over to the Norris Grain Company for operation under a temporary lease by Federal Judge William H. Holly.

The Norris firm will operate the elevators pending decision on plans for reorganization of the Rosenbaum Corporation.

Illinois Guardsmen to Concentra- tion Camp With Second Army in 1936

Washington, Aug. 8.—(AP)—The mobilization of the "First Army" at Pine Camp, N. Y., and Mount Gretna, Penna., this month will be but the first of a series of far-flung peace-time military maneuvers.

As preparations for the First Army concentration progressed, officials said today that plans are underway for mobilization of the Second, Third and Fourth Armies in the next three summers.

Regulars and National Guardsmen will comprise the "First Army"

CENTRAL OHIO FLOODS WORST IN MANY YEARS

Second Heavy Rain of Week Sends Rivers Out of Banks

Coshocton, O., Aug. 8.—(AP)—Swirling, yellow overflow waters from two large rivers and dozens of smaller streams continued to sweep over a wide area of east-central Ohio today, in the worst flood disaster this state has experienced in 22 years.

The rivers were still rising with every indication the situation would grow worse.

Following the cloudburst that started the rivers on their rampage Tuesday night, another heavy rain descended upon much of the affected area last night, and more rain was forecast for today.

Water six feet deep was running through hundreds of homes in the six counties where the flood was worst. Two persons were known to have drowned, and another was missing. In addition to these, two others died during the storm Tuesday night—one, who was struck by lightning, the other from a heart attack as a bolt struck a barn.

Hundreds Homeless
At Massillon, 35 miles north of here, almost 60 percent of the city's area was under water last night and hundreds there were homeless.

At Dover, south of Massillon, the flood waters were nearly seven feet deep over several blocks, and rowboats were in use removing residents from dwellings.

The Tuscarawas river at Dover was 12 feet above normal and still rising, threatening a shutdown of the city's electric light plant, and of the waterworks pumping stations there and at nearby New Philadelphia.

Unofficial estimates of the property damage in the six counties ran into hundreds of thousands of dollars.

Expect Worst Today
Coshocton—situated at the confluence of the Tuscarawas and the Walhonding rivers—expected to get the worst of its share of the flood today. The waters here were rising two inches an hour, twice as fast as before last midnight, when the newest rains in Holmes county converted the Walhonding into a raging torrent.

The river stage here was 24.15 feet early today, and the waters were within one foot of the boilers at the municipal water works.

In West Virginia
Clarksburg, W. Va., Aug. 8.—(AP)—Muddy stretches of ruined bottom lands, washed out cornfields and dirty streets were left today by one of the worst floods in central West Virginia during recent years.

As traffic was resumed on arterial highways extra city employees were called out in Weston, Buckhannon, Glenville, Pennsboro, Salem, Bristol, Burnsville and other places to clean debris carried into the streets.

Reports were that damage was held to a minimum with the exception of farm crops. Farm bureau officials said they believed crop loss would run into thousands of dollars.

All bottom land in six or seven counties was under from two to ten feet of water, for a time. Hundreds of cornfields were washed away.

James Varner Watson, 16, of Clarksburg, was drowned while swimming in the West Fork river.

Wisconsin Damage
La Crosse, Wis., Aug. 8.—(AP)—Leaving a wide path of destruction in its wake, a high wall of flood water from the rampaging Kickapoo river poured into the Wisconsin river at Wauzeka today.

The village of Barnum, 18 miles north of Wauzeka, was isolated, its 200 inhabitants unable to seek refuge in nearby communities as water swept through its streets and over state and county trunk highways.

LEAKE HINTS AT HARD ROAD ROCK FALLS TO DIXON

Indicates Such Im- provement May Be Possible Very Soon

That an improved hard surfaced road would soon extend from the west city limits of Dixon and connect with the present road east of Rock Falls which terminates at the Lee-Whiteside county line was hinted yesterday afternoon by County Superintendent of Highways Fred W. Leake. He is at the present time conducting a survey, he told members of the board of supervisors, which would bring about the improvement of the Rock Falls and afford citizens of Nelson with a fine spur.

The county highway superintendent did not indicate the type of construction which he had planned for this project, but it was believed that a "black top" substance would probably be recommended similar to the Lowell park road. Asked where funds could be secured for the construction of an improved highway on the south side of the river, Superintendent Leake stated that in his opinion, there would be a sufficient amount available from the county's share of the gas tax refund from the state to defray the expense of the improvement. He estimated that the county would have approximately \$20,000 in this fund before the first of next year.

The proposed improvement would begin at the end of the cement paving at the west city limits following the present route of the Rock Falls road west to the main road leading out of Nelson and one mile from that village. The Nelson spur and improvement provides for a "black top" surfaced road leading from the business section of Nelson south to the Rock Falls road and then west to Rock Falls, this project being included in the PWA program.

Not For High Speeds
"Its elimination does not in any sense mean that the legislature intended to encourage high speeds. In fact the contrary is true in that the intent of the law is that operators shall observe the universal rule which requires safe and careful driving at all times, x x x

"A comparatively small per cent of the one and one-half million drivers in Illinois are competent to operate automobiles at speeds of 60 miles per hour and greater. The sooner the motoring public realizes this and the tragic consequences of accidents which occur in the higher speed brackets, the sooner will enforcement of a speed limit become unnecessary."

The new speed limits in municipal zones are: business districts, 20 miles per hour; residential, 25 miles, and suburban, 35 miles. The suburban classification is new and intended for cases where the corporate limits are some distance from the outskirts of the city or village.

Conditions Vary
On the theory that driving conditions vary, Lieberman said the new traffic act permits the state and the municipalities to establish a "reasonable and safe prima facie speed limit," not more than 45 miles per hour, to become effective as soon as signs are posted.

The chief engineer stated that local police officers have full authority to enforce speed limits on streets used as state highways. He said the state "does not countenance the unreasonable enforcement of the law and will use its influence in discouraging the establishment of so-called 'speed traps' by any enforcement agency."

REACH AGREEMENT
Washington, Aug. 8.—Members of a conference committee adjusting senate-house differences on the social security bill reached a complete agreement today by eliminating the Clark provision permitting tax-exempt private pension plans to remain in operation.

Two New Records

Chicago, Aug. 8.—(AP)—Chief Fire Marshal Michael J. Corrigan claimed two new records for the city: a 24 hour period with no fire loss and with but five fire calls, the fewest in the 25 years daily records have been kept.

It was the city's first day without fire loss.

SPEED SURVEYS BEING STUDIED BY STATE DEPT.

Repeal of 45-Mile Limit Not Encouragement for High Speeds

Springfield, Ill., Aug. 8.—(AP)—The state division of highways today announced it is undertaking a series of local surveys to determine what speed limits are "reasonable and safe considering the prevailing conditions."

Chief Highway Engineer Ernst Lieberman announced that the new traffic code, passed by the 1935 legislature, for the first time gives the state and the municipalities the right to fix and change prima facie speed limits.

Of the old 45 mile an hour prima facie limit on rural highways, now repealed, Lieberman said:

TAUNTS DRIVE BOY TO FATAL MOUNT CLIMB

Companion Tells of Fall to Death in Colorado Camp

Camp Chief Ouray, Colo., Aug. 8.—(AP)—Weary men searched near Lindbergh peak today for the body of William Brode, 15, as a youthful companion with trembling lips of their fatal assault on a treacherous mountainside.

The body of the scion of an old Memphis, Tenn., family was believed lodged beyond sight, and possibly beyond recovery, in a funnel shaped crevice into which he plummeted late Tuesday.

Robert Henderson, also 15, of Omaha, Neb., had directed the mountain men to the spot after he had been found, badly cut about the feet by sharp rocks and almost incoherent, after running for help.

"Brode suddenly fell," Henderson said. "He hit the mountain twice. I called to him but he never answered me."

The lads were descending a mountain adjoining Lindbergh peak, a 2-mile high granite sentinel, when their attention was distracted by a sound of falling rocks. A moment later Brode lost his footing.

Couldn't Stand Taunts.
Brode's weak heart had caused him to be left fishing at Monarch lake Tuesday while other members of a Y. M. C. A. summer camp were taken on a supervised mountain climb.

Apparently Brode had been stung by jests of the other boys about his having to remain near the camp for he was heard to respond, in a soft drawl:

"Some day I'll climb the biggest old hill in Colorado."

Shortly afterward he and Henderson started out. Whether they reached the top of the height where death came to the youth was not clear from Henderson's broken story.

They were descending at a point about 3,000 feet above surrounding terrain at the time of the accident.

Experienced hillmen took ropes and other devices to the scene this morning for a final attempt to recover the body.

COUPLE RESCUED.
Yosemite, Calif., Aug. 8.—(AP)—Rescued from a perilous perch 2,000 feet above the floor of Yosemite Valley, Miss Elizabeth Lorimer, 25, was recovering from her harrowing experience today, but her companion in a ordeal lay seriously injured in a hospital.

Forest rangers, using ropes, brought Miss Lorimer and Robert Tate, 35, down the precipitous granite mountainside yesterday.

For a full night the two had clung to scanty footing that stood between them and death.

Miss Lorimer, whose home is in Chicago, Mass., was unscathed, but Tate had to be brought down over the sharply sloping mountainside on a stretcher.

Physicians at Lewis hospital in the valley said they would not know the extent of his injuries until X-ray plates were examined. Preliminary examination disclosed a broken shoulder, body bruises and scratches, and possible skull fracture.

Power Station at E. St. Louis is Bombed
East St. Louis, Ill., Aug. 8.—(AP)—Officials of the East St. Louis Power & Light Company were unable today to explain an explosion, apparently due to a bomb, which wrecked the company's cable terminal station on the Mississippi river levee.

The blast last night blew the roof off the one-story brick building, demolished three walls and tore loose three cable connections.

There was only an imperceptible break in service as supplementary power was immediately switched on from a sub-station.

George P. May, general manager of the company, who estimated the damages at \$2,000, said he knew of no reason for the bombing. The company had no labor difficulties, he added.

Found In Prison

Chicago, Aug. 8.—(AP)—Leo Gasler, 25, had been sought since April 14, when the state Supreme Court affirmed his prison sentence of one year to life for robbery. The Chicago Crime Commission advised officials to look for him in Joliet prison, and there he was—serving two concurrent one-year-to-life sentences for burglary under the alias of Leo Trapiz.

HEARING ON NEW TAX BILL ENDED IN U. S. SENATE

Last Witnesses Attacked Measure as "Inequitable" and "Unsound"

Washington, Aug. 8.—(AP)—After listening to a final blast from organized business against the tax bill passed by the house at President Roosevelt's request, the senate finance committee today concluded public hearings on the measure.

Chairman Harrison immediately called an executive session for tomorrow to consider revisions. He expressed hope the bill could be made ready for senate consideration early next week.

Asked what changes were likely, Harrison said:

"We haven't had an exchange of views yet. We will have morning and afternoon sessions and may meet at night."

Ellsworth Cam Alvord, a former legislative counsel for congress on tax matters, spoke for the Chamber of Commerce of the United States at the committee's final hearing.

Called "Inequitable."
"Inequitable" and "uncertain" were some of the terms he applied to the excess profits levy which the house adopted in lieu of the broadly graduated corporation income rates suggested by the president.

"It penalizes conservatively managed enterprises and discriminates against them in favor of inflationistic corporate finance," Alvord declared.

Meanwhile, some committee members indicated they might seek to ease the inheritance levies in the house bill. These range as high as 75 per cent on that portion of an inheritance over \$10,000,000.

The excess profits tax against which Alvord protested would range from 5 to 20 per cent on profits exceeding 8 per cent of a corporation's adjusted capital declared value.

Circumstance-Controlled.
"Even the excess profits tax of 1918, representing probably the best which could be devised, was admittedly unsound, unfair, and discriminatory," the business spokesman said. "Tax liabilities were controlled largely by fortuitous circumstances having nothing to do with income or ability to pay."

Another witness, F. R. Gamble of New York, executive secretary of the American Association of Advertising Agencies, urged exemption of personal service corporations, including advertising agencies, from the excess profits levies.

Gamble contended to apply the levies to advertising corporations would "virtually amount to confiscation." He argued capital invested in these agencies was nominal but could be easily doubled without enhancing profits.

Chairman Harrison asked if the Chamber favored a tax bill now to "balance the budget."

"The Chamber favors continuance of the present law and giving business a chance to increase its income; then the present law will give you all the revenue you want," Alvord replied.

Reviewing all the Chamber's arguments, he said the bill should be postponed until the new budget was before congress so it could be seen how much revenue was needed.

NELSON-ROCK FALLS BLACK TOP OKAYED

Supervisors Sustain Committee in Locat- ing PWA Project

Opposition to the construction of a "black top" road to connect the village of Nelson with Sterling in Whiteside county with Lee county funds, developed at the special meeting of the board of supervisors yesterday afternoon. Likewise there was a diversified opinion among the board members with regard to "black top" but some of the supervisors who led the opposition to the construction of the road, suddenly switched their opinions and voted for the "black top" substance.

Supervisor D. H. Spencer of Dixon was the first to voice objection to the construction of the Nelson spur, the route of which leads past the farm home of Chairman John T. Emmitt, who represents Nelson township on the board. The Dixon supervisor mildly expressed his opinion in opposition to a spur road, particularly of "black top" material from Nelson to Sterling and Assistant Supervisor Leon Garrison emphasized the objection by stating that the road should come to Dixon.

Leake "Hired Man"
"I am only the hired man in this case," Superintendent of Highways Fred Leake replied to the criticism, and had nothing to do either with the location or type of surface selected. This was the recommendation of the road and bridge committee, he stated, and he had merely performed his duties and proceeded to prepare the plans.

For the time being the discussion about the proposed Nelson spur subsided while the proposed Works Progress Administration program was given further consideration and long discussion. Chairman W. F. Burhenn had made several requests for some action by the board and the supervisors were gathering in groups to discuss various phases of the program when County Superintendent of Highways Leake was heard to state very plainly:

"I am of the opinion that the bone of contention before this board now is opposition to 'black top.' I want it understood that this was the selection of the road and bridge committee and not mine. I merely carried out the wishes of that committee. If members of this county board are opposed to 'black top' let them get up and say so."

Supervisor J. E. Mau presented a motion to have the "black top" proposal in the county's WPA program eliminated and Assistant Su-

LAXATIVE HABIT CAN BE BROKEN

Read About A New Mixture Of Medicinal Plant Extracts, Called Indo-Vin, That Works With Your Food, Helping Nature To End Constipation

Many people habitually constipated fail to realize that indigestion may be the real cause of their trouble. Often we have indigestion without knowing it. But when our food digests properly, elimination takes care of itself in a natural way and constipation vanishes. Therefore, Indo-Vin is made of natural plant extracts that work with the sufferer's food, assisting nature in a practical, common-sense way. Thus Indo-Vin gives nature the urge it needs and in just ten days the bowels should be acting in a natural manner, without the use of laxatives or drugs.

Indo-Vin is now being introduced here in Dixon at the Ford-Hopkins drug store.

WHAT INDO-VIN IS It is the world's newest medicine containing a combination of ingredients found in no other formula. These ingredients mix with the food in one's stomach, relieving any sourness or distress in the stomach itself, and permitting the liver and bowels to function properly. It will cleanse your bowels (gradually—not drastic or severe) as they rarely ever are cleansed, and tone them into better daily action.

While Indo-Vin is being introduced in Dixon every suffering person can take it at the small cost of only a few cents a day. So if bowel trouble or stomach distress is bringing you misery it would certainly be a mistake not to try it. Indo-Vin is now being introduced to the public daily here in Dixon at the Ford-Hopkins Drug Store. Also being sold at all good druggists throughout this section.

FOULOIS QUIT'S AIR CORPS JOB

Washington, Aug. 8.—(AP)—Major General Benjamin D. Foulois ended a long and bitter controversy between the War Department and the house military committee today by retiring as Chief of the Army Air Corps.

The War Department announced that Foulois, on his own application, was granted leave of absence until December 22. At that time he will be 64 and automatically retire for age.

Foulois, now on temporary leave, has had little direction of air corps activities since the house military subcommittee demanded that Secretary Dern remove him as chief because of charges of inefficiency, mis-statements made to an investigating committee and other accusations.

Dern refused the committee's request and had the Inspector General of the Army make a complete investigation.

On the basis of this report, Dern cleared Foulois of the charges, although he found that the general had made some misstatements to the committee.

Former Head of Ind. Klan Seeking Release

Laporte, Ind., Aug. 8.—(AP)—D. C. Stephenson accused former Indiana political leaders and associates in the Ku Klux Klan of conspiracy to convict him of murder in an ap etition filed today in the Laporte circuit court.

Stephenson, former Indiana Grand Dragon of the Klan, is seeking release from the Michigan City penitentiary where he is serving a life term for the murder of Miss Madge Oberholzer of Indianapolis.

A hearing is to be held Monday by Judge Wirt Worden on the former Klan leader's latest petition, one of a series of legal moves to obtain his release.

Stephenson alleges that two years prior to his conviction in 1925 he resigned from the Klan "after learning the criminal character of the leaders."

The petition alleges the murder charge was made against Stephenson following his refusal to enter an agreement with Ed Jackson, former governor, to refrain from exposing "the criminal character of the Klan leaders" pending the general election of 1928.

Three Occupants of Summer Home Burned to Death this A. M.

Stanley, Wis Aug. 8.—(AP)—Three persons lost their lives today when fire destroyed the summer home of G. W. Schmidt, professor of German at Platteville State Teachers College.

The dead: Mrs. G. W. Schmidt, 60, Platteville; Frank Schmidt, 30, Chicago, and Florian Bruzan, 22, Stanley.

Schmidt, son of the professor and collector of reptiles for the Field Museum, Chicago, and Bruzan burned to death. Mrs. Schmidt discovered the fire and aroused occupants of the dwelling, but was unable to escape. Members of the family said they believed she suffered a heart attack, to which she was subject.

Prof. Schmidt escaped down a ladder placed at a window. Two grandsons who also slept in the attic leaped to safety.

FORMER BANKER LOSES MILLION DOLLAR ACTION

Board Decided Chas. Mitchell in Debt to Government

Washington, Aug. 8.—(AP)—The next move in the Charles E. Mitchell income tax fight, in which the former chairman of the National City Bank of New York suffered a \$1,200,000 defeat yesterday, depends on whether he decides to appeal.

The board of tax appeals, in a decision which labelled part of Mitchell's income tax returns as "fraudulent," ruled yesterday that he owes the government the greater part of a \$1,275,645 tax claim preferred against him.

Mitchell has the right to appeal to the Circuit Court of Appeals and thence to the Supreme Court. If he does not, the government presumably will put its collection machinery into motion.

The decision yesterday noted that Mitchell's fortunes declined from a "net worth" of about \$30,000,000 on Dec. 20, 1929, to insolvency "by an amount in excess of \$3,000,000" on March 24, 1932. It did not say anything about his present financial status.

According to estimates of treasury officials, the board decision upheld about \$1,200,000 of the original \$1,275,644 claim, for it held that a New York jury's action in acquitting Mitchell of criminal charges of tax evasion does "not bar the imposition of the penalty of 50 per cent of the deficiency."

The original assessment included tax deficiency claims of \$850,429, plus 50 per cent penalties of \$425,215.

ACCUSED GIRL FALLS ON FACE AT HER TRIAL

Detroit, Aug. 8.—(AP)—Jean Miller, accused in scathing cross-examination of "acting" during her trial for the murder of Howard Carter Dickinson, slipped from the witness chair and fell on her face in Recorder's court today.

A half-hour recess was taken while the former burlesque dancer, on trial with three other self-styled "cocktail bar racketeers" for the slaying of the New York attorney, was treated by a physician who said she was suffering from hysteria.

She declared in direct examination that she had been coached by Police Sgt. Earl Switzer and Detective Earl Branton when she made her final statement to the prosecutor in which she admitted that she, William Lee Ferris, and Loretta and Florence Jackson, enticed Dickinson to accompany them on the ride which ended in his slaying here June 26.

"You can say anything and it won't count unless you sign it," she testified Switzer had told her. She denied she had any anything to do with the murder of Dickinson, who was a nephew of Chief Justice Charles Evans Hughes.

Prosecutor Duncan McCrea opened cross-examination with the "acting" charge, which was immediately followed by the dancer's fall from the stand.

"Comeback" of Anti-Saloon League Plan

Washington, Aug. 8.—(AP)—Declaring "repeal has failed," P. Scott McBride, general superintendent of the Anti-Saloon League, today called a conference of state and national dry leaders to meet at Winona Lake, Ind., on Aug. 26, 27 and 28 to plan a new offensive.

He said the meeting would be one of several held preparatory to the "comeback" national convention of the league at St. Louis in December.

Representatives from Michigan, Wisconsin, Minnesota, Illinois, Indiana, Iowa, Kentucky, Tennessee, West Virginia, Ohio and Pennsylvania are expected to attend.

"The eleven states in this conference all report the worst conditions ever known as to liquor," McBride declared.

Counties Empowered to Raise Funds for Relief Says Kerner

Springfield, Ill., Aug. 8.—(AP)—The counties, Attorney General Otto Kerner ruled today, now have authority to raise funds for pauper relief.

He told the Illinois Emergency Relief Commission that under the budget law all counties have authority to appropriate funds to care for the poor until taxes can be levied under the new statutes shifting from the townships to the counties the obligation for caring for the poor.

DEMOCRATS MAY NOT GET VOTES FOR GUFFEY ACT

Washington, Aug. 8.—(AP)—A poll of Democrats on the Guffey coal bill was reported authoritatively to have raised grave doubts as to whether the measure would pass the house.

First returns on the poll were discussed just after Representative Lewis (D-Md.), following a talk with President Roosevelt, predicted that the bill would be reported "this afternoon" by the house ways and means committee and would pass the house.

The poll of Democrats was being made on two questions: What the vote would be if the bill were reported favorably by the committee, and what it would be if the committee made no recommendation.

The actual figures were guarded closely, but it was said that a majority of the 319 Democrats had indicated they would vote against the bill if it lacked full committee approval.

Some leaders were figuring on most of the Republicans voting against the bill under any circumstances, and consequently calculated they must get most of their support from the Democratic side.

The measure remained deadlocked, at least temporarily, in the ways and means committee with the tentative count there standing 14 to 11 against a favorable report to the house.

Amboy Youth is Held For Alleged Thefts

Adolph Bach, aged 20, of Amboy was arrested in that city last evening by Sheriff Ward Miller and deputies when he was found operating an automobile without license plates. Bach stated that he had operated the car since last June and had not applied for a license. He pleaded guilty to a larceny charge when arraigned before Judge Leach in the county court this morning and was sentenced to serve 90 days in the county jail and pay the costs.

Sheriff Miller stated that Bach had admitted the theft of several gallons of gasoline and tools from the Richard Petrie farm three miles northeast of Ashton where he was employed for a few days. He was also said to have admitted that of Ogile county where he had served a long jail sentence. The Ashton township farmer came to Dixon last evening and identified his property. It was stated and was to file charges against Bach today. The youth was reported to have stated in a confession that he went to the Petrie farm Monday evening, siphoned two five gallon cans of gasoline from the tank on the tractor, poured it into the gas tank of his car and then collected tools and drove away.

Lee County to Get \$4,796 of Gas Tax

Springfield, Ill., Aug. 8.—(AP)—A net allotment of \$618,880.51 was made to counties as their share of the motor fuel tax for July.

In addition, \$202,700 was held in reserve by the state to be applied to interest and retirement of the \$20,000,000 emergency relief bond issue and \$41,590 for interest and retirement of the \$30,000,000 relief bond issue.

The net allotment to Cook county was \$190,533.36. Other counties and their allotments included:

Lee, 4,796.24; Carroll, 2,813.81; LaSalle, 11,497.38; Stephenson, 5,798.07; Whiteside, 6,663.43.

Rochelle Man Held in Rockford Today

Rockford, Ill., Aug. 8.—(AP)—Edward Wilson, 25, Rochelle, was closely guarded in the city jail today as police sought to connect him with a series of burglaries in Rockford. He was taken into custody yesterday as he slept in a car, later identified as having been stolen. Officers who made the arrest said Wilson sought to draw a pistol, but was disarmed. Later in the jail, he ripped a bunk apart and with a steel slat attempted to pry out a window bar, police said.

SILENT PARTNER

By Dr. Joseph Fort Newton

"HERE is my problem," a woman writes, "and I shall be very grateful if you can help me. I feel hurt because my husband never consults me, or confides in me, about any of his business affairs."

"Talk on general topics flows freely, but if I strike a personal note it ceases. If I ask how business is going, I get an evasive answer or none at all. It is making me bitter and angry."

"Knowing that I have a small private income, my husband has lately stopped a part of my house-keeping money without telling me."

why. If he had told me that it was necessary, it would be all right.

"If he had told me that things were going badly, and had asked me to manage with a little less money, or draw on my own, it would have made me feel like a partner. But he is as dumb as an oyster."

Of all things that cause trouble in married life, money comes very near the top of the list. In this case it needs the wisdom of Solomon and the patience of Job to deal with it.

The husband may be one of those mistaken men who think that by not confiding in his wife he is saving her worry. But he is doing nothing of the kind; he is actually causing her worry.

Or he may be mean, desiring to compel his wife to use her own money so he can save. That, however, is hardly true in this case. It is just a lack of understanding and likely to end in disaster.

Any wife worthy of the name wants to share the burdens of her husband, as well as his joys. But if he shut up like a clam, and shuts her out of what she has a right to know, it is just too bad.

A frank, kindly, honest talk between this man and his wife might put everything to rights. If that is impossible, the case is pretty hopeless; and what a pity that it should turn out so!

In any case, let the wife be generous and wise, as well as firm, and not let a home be blown up by unkind things both have kept bottled in their mind. Otherwise, cruel hurts will be added to broken hopes.

Methylene blue injections have been found very beneficial in the treatment of leprosy.

Wenberg-Reid Wedding Friday

In a home ceremony at 1 p. m. Friday Miss Sylvia Wenberg, daughter of Mr. and Mrs. Emil Wenberg of Oregon, will be married to Frank L. Reid, son of Mr. and Mrs. A. C. Reid of Oregon.

The Rev. J. Edwin Dale, pastor of St. Paul's Lutheran church, Oregon, will read the service at the Wenberg home, 605 Monroe street. Miss Margaret Reid will be maid of honor, and the best man will be Olaf J. Wenberg of Cleveland, O., brother of the bride-to-be. Guests will include members of the immediate families and luncheon will be served after the ceremony. Out-of-town guests will be Mrs. Etta Kesselring, Woodstock, an aunt of the groom, and Burnell Waggaman, Rochelle, fiancé of Miss Reid.

Tuesday evening Miss Wenberg was guest of honor at a surprise shower at which Miss Margaret Reid was hostess at the Reid home in Oregon.

Andrew-Carpenter Wedding Aug. 21st

Miss Margaret Andrew of Rockford, who will become the bride of Harold Carpenter, son of Mr. and Mrs. Harvey Carpenter of Sterling, on August 21, is being much entertained by her Rockford friends. Last Saturday evening Dr. and Mrs. Carlton D. Reed of Rockford entertained for Miss Andrew and Mr. Carpenter with a dinner party. Their marriage will take place at 4 o'clock in the afternoon at the home of the bride-elect's mother, Mrs. Mary Andrew, 1622 North Church street, Rockford.

Dr. and Mrs. Andreen Observe Anniversary

Dr. Gustav Andreen, for many years president of Augustana college, and Mrs. Andreen, celebrated their forty-fifth wedding anniversary Wednesday at their home, 731 35th street, Rock Island. No formal observance is being made of the occasion. A family dinner was served last Saturday when children of the couple were guests of their parents over the week-end.

Dr. and Mrs. Andreen were married in Junction City, Kas., and came to Rock Island in 1901 from New Haven, Conn., where Dr. Andreen was professor of Scandinavian languages and literature at

Yale university. Succeeding Dr. Olof Olsson in 1907 to the presidency of Augustana, Dr. Andreen served until last year, when he retired to become alumni secretary.

Yesterday's Stars

(By The Associated Press)

Cy Blanton, Pirates—Shut out the Cubs with nine scattered hits.

Al Wright, Indians, and Vernon Washington, White Sox—Former got three hits in first game; latter's Single scored two runs in tenth inning of nightcap.

Ernest Orsatti, Cardinals—Connected with three hits and drove in two of four runs scored against Reds.

Joe Cronin, Red Sox and George Selkirk, Yankees—Cronin's ninth inning homer with two on gave Sox first game; Selkirk drove in four runs in second.

Pearl street, New York City, runs in three different directions. It touches Broadway twice, but never crosses it. It begins downtown at the east side of Broadway, runs eastward and then swings off southward in a wide arc that leans west until it once more encounters Broadway in the far downtown district.

India's Sepoy mutiny of 1857 was caused by cartridges greased with animal fat. Hindu soldiers refused to accept the greased cartridges because they regarded the touching of cow fat as contamination worse than death, so British authorities imprisoned great numbers, causing revolt.

MUCKRAKING SENATORS

Senators now are engaging as muckrakers, searching every bit for something that will discredit public utilities or will discredit newspapers that have opposed the massacre of holding companies.

When one public utility is found that has done things dishonest or even only foolish, then a blast will be issued against all utilities on that basis.

When one newspaper or other publication has been found that has accepted money for carrying on a campaign in the interest of some utility, for if the senators search the muck long enough they probably will find one, then a blast will be issued against all newspapers and their editors as tools of the power trust, as subsidized organs. It is strange that United States senators should operate that way, but they do. In the cases of many of them they seek to rise and to acquire their places and to retain them not by their own ability as statesmen, but by their use of their positions to tear down some one else.

This comment is induced by a statement of Peter Molyneux, editor of the Texas Weekly, to his readers. He has achieved a national reputation as editor of his weekly. His name was brought into the senatorial lobby inquiry recently when Mr. Carpenter of the Texas Power and Light company was testifying. Mr. Carpenter was asked if he had paid Mr. Molyneux for a radio speech. Mr. Molyneux says he only prepared the continuity for interviews with leading citizens of Texas and that he was paid for his work by the Texas Utility Investors' association.

In his statement to his readers, Mr. Molyneux says: "First of all I want to call attention to the fact that there has not been a line in the Texas Weekly about the Wheeler-Rayburn bill. Not only has the Texas Weekly not attacked that bill, but it has not mentioned it a single time. . . . And finally let me say that aside from a page advertisement in a special edition of the Texas Weekly issued more than a year ago, neither that periodical nor its editor has done any business with the Texas Power and Light company during the last three years, and neither the periodical nor its editor has received any revenue from that company."

The senators were authorized to investigate lobbying activities and were given wide powers, so instead of finding out what was carried on in Washington by the president's agents on one hand and by the corporations on the other, they go out searching for an editor to put mud on. Raking muck, raking muck, raking muck, and trying to get some of it on somebody is their occupation.

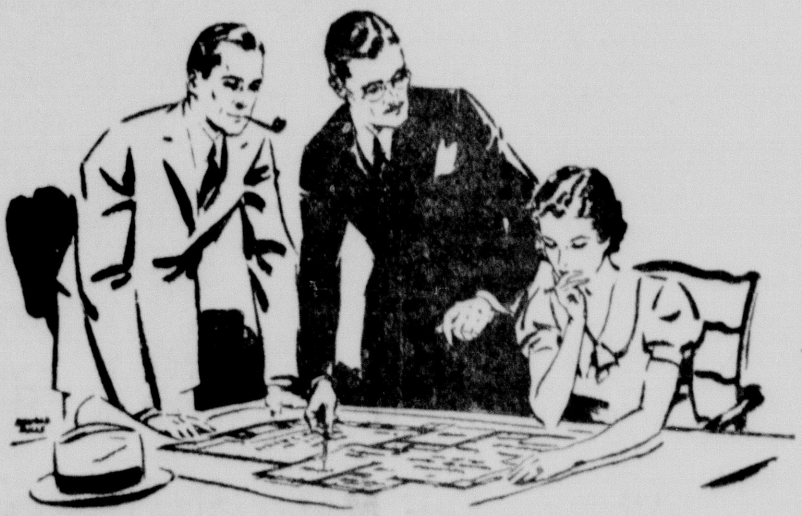

What if it had been shown that Molyneux's publication had carried advertising for the corporation? He's in the business of selling advertising. He says he is against the Rayburn bill, but never mentioned the fact in his publication—something that a United States senator probably never will be able to understand. If he is against the Rayburn bill, as he says he is, what if he should use the power of the Texas Weekly in that opposition? It's his weekly and it expresses his views. If he is against the Rayburn bill, as he says he is, what if he should write some continuity for radio interviews, even for the power company instead of the utility investors?

Faces Charge of Mail Fraud; Gives Self Up

Chicago, Aug. 8.—(AP)—Waterman William Porter, 45, surrendered to Postal Inspector David Lyons here on a federal warrant charging use of the mails in a scheme to defraud.

The government alleged Porter was the head of the Wall Street Securities Company of Chicago, the Wall Street Trust Company of New York and the Tri-State Investors' Corporation of Owosso, Mich., and that accounts of the three firms showed a \$1,700,000 shortage.

District Attorney Michael L. Igoe was before the federal grand jury with the case. Surrender of Porter, for whom a warrant was issued several weeks ago, came after Inspector Lyons contacted Mrs. Porter at Paw Paw, Mich., he said.

demand CONCRETE FLOORS in your new home

New process cuts cost . . . puts rigid, firesafe floors within reach of all.

That concrete floors are best no one doubts! But the cost? That problem has at last been solved. Pre-cast joists bring the cost of a concrete floor down to a basis comparable with ordinary combustible construction.

And think of the enduring advantages! Rigid concrete floors prevent sagging doors and windows and plaster cracking . . . eliminate repair expense . . . and protect against fires.

You can have concrete floors

with any type of house . . . concrete, brick, stucco, stone, frame. And you can have any kind of floor covering . . . hardwood, carpet, linoleum, or tiled and polished concrete.

Rural Carriers to Have Picnic Sunday at Pecatonica Fair

The rural carrier of the 12th and 13th Congressional Districts of Illinois are sponsoring a big picnic on Sunday at the Pecatonica fair grounds.

Invitations have been sent out covering all of northern Illinois, southern Wisconsin and eastern Iowa. The dinner will be served at the noon hour by the ladies of the Auxiliary organization.

Congressmen John T. Buckbee and Leo E. Allen expect to be present if business does not detain them at Washington. However the program committee has secured the promise of the Hon. David Hunter of Rockford to be present and he and officers of the Rural Carrier and Ladies Auxiliary organizations will furnish the talks while music will be furnished by ex-Carrier Wright and his boys from Pecatonica.

Retail trade in the Philippine Islands is dominated by the Chinese merchants with Filipino merchants second and Japanese third. In volume of business handled.

Although the astronomical day begins at the Greenwich meridian, the calendar day arbitrarily begins at the International Date Line.

If he is against the Rayburn bill, as he says he is, why shouldn't he sell advertising to the Texas corporation officials, if they think it is worth buying? He sells advertising and they need it.

It happens that he didn't carry any advertising, he didn't receive money from the corporation for writing continuity, and he didn't mention the bill in his publication, although opposed to the bill and consistently could have done all.

Yet the muckraking senators seek to make something sinister out of any relations an editor has with a power corporation.

Why, if such insinuations are to be allowed to stand, no editor could oppose any of the half-baked legislation that has been promoted by the new lights without subjecting himself to the charge of corrupt influence by its advertisers. He could not oppose communism without charge of being "subsidized," because advertising corporations are "capitalistic" and believe in private profits.

But they'll keep on raking muck, because they like it.

THE LAST LONG MILE

Men who slogged the long roads of France in 1918, and even those who pounded the native variety under an army pack, will get a kick out of the announcement that the First Army, moving to New York's Pine Camp for maneuvers, will be carried in taxicabs. Lack of regular truck transport facilities has made it necessary, Maj.-Gen. Dennis Nolan says.

Well, the first Battle of the Marne was won by the Paris taxicabs, which were mobilized to carry Gallieni's men out and throw them into the breach in the German lines so near to Paris. Maybe General Nolan has something like this in mind. The American taxi will do a better job than the wheezy antiques which moved Gallieni's men, though that job was good enough.

But the boys who sang "The Last Long Mile" at Plattsburg in 1917 and in hundreds of other camps later, will be inclined to recall, and to parody:

"It's not the hike on the hard turnpike
That wears away your smile!
For it's far, far sweeter
To watch a clicking meter
On that last, long mile!"

THE TINYMITES

(READ THE STORY THEN COLOR THE PICTURE)

"Well," Scouty said, "Let's not stand here. I don't think there's a thing to fear inside the archway of Freak Forest. Who will follow me?"

"At least we all can walk around. No telling what things may be found. The pilot of the plane said there'd be lots of things to see."

"I'm game," said Dotty. "Lead the way. If we don't like it, we won't stay. I just hope we are fortunate, and find a bite to eat."

"I am so hungry. I feel thin." And then the Tinymites walked in. A bird upon tree limb greeted them with, "Tweet, tweet, tweet."

"Hello, there," shouted Coppy. "Say, why don't you fly and show the way to someone who knows 'bout the place? We're strangers here, you see."

Back through the trees the strange bird flew. The next thing that the Tinymites knew, they came upon a man who said, "Ah, ha, what do I see?"

"Some little tots! You're welcome here. Nice company fills me with cheer. I am a wild beast trainer, and I train the tame ones, too."

"The pilot of the plane has seen here and he said that you'd drop

in. I'll spend all of the time I can at entertaining you."

"Oh, that's just fine," said Dotty. "Now, perhaps you'd like to tell us how we all can get a little lunch. Then we will feel all right."

"For hours we have been on the go. That's made us hungry tots, you know. We'll gladly eat up anything that you can put in sight."

The man just smiled and said, "I had a hunch that you all would be glad to have a lot of sandwiches. A basketful is near."

They found it 'neath a nearby tree. Said Duncy, "That looks good to me." The man said, "Take your time at eating. I will stay right here."

EMPEROR HAILE PLANS CAMPAIGN

Reported to Have Decided on Strategy if War With Italy Comes

Addis Ababa, Aug. 8.—(AP)—Emperor Haile Selassie has refused permission to his warriors to foregather in the vicinity of Adua, where an Italian expedition was crushed 40 years ago.

Authoritative sources expressed belief today that the King of Kings, realizing Adua probably would be Italy's first goal, may decide not to defend it forcefully, but to use punitive surprise tactics elsewhere. This belief was based on reports that Haile Selassie discussed with his chiefs recently concentration of his forces on the Italian Somaliland front, so that if war should come, they could swoop into the apparently defended area.

Unconfirmed reports said the Italians would be allowed to take Adua and to advance into deep northern Ethiopia, but that when they were far from their bases in unmapped country, the Ethiopians would try to cut them off and demoralize them with guerilla tactics.

Takes Precautions
The refusal to permit troops to concentrate in the Eritrea sector was attributed further by government circles to the Emperor's ardent desire to prevent another border incident, which he was represented as feeling would render present peace efforts futile.

Reports circulating in the capital said that if the Italians advanced from Eritrea, Haile Selassie would drive into Italian Somaliland on the same day, counterbalancing any loss of territory.

This would permit the emperor to concentrate his most able troops on a front where he considered success in stopping the Italian forces was possible, instead of sending part of the troops to defend Adua.

The mobilization of Ethiopian warriors continued, but heavy rains

were rendering their movements most difficult.

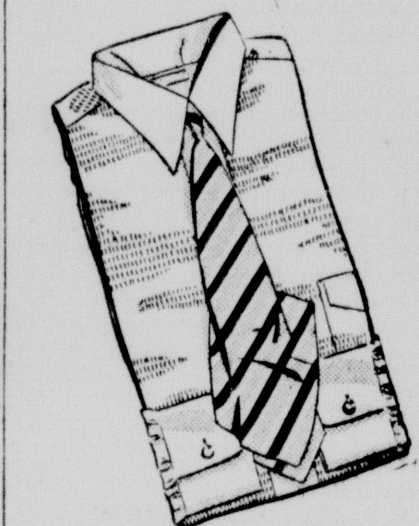

RESUME PARLEY AUG. 16
Paris, Aug. 8.—(AP)—Conversations on the Italo-Ethiopian crisis between representatives of England, France and Italy have been tentatively for Aug. 16 in Paris. The date and place were decided on at conferences among Premier Pierre Laval and the British and Italian ambassadors. A definite announcement awaited formal acceptance by London and Rome.

Baked Fish Fillets
 2 pounds fish fillets
 2-3 cup crumbs
 1 teaspoon salt
 1-4 teaspoon pepper
 1-3 cup milk
 1 egg
 4 tablespoons fat
 1-4 cup water

Wipe off fish with damp cloth. Dip in crumbs, in milk in which egg and seasonings have been placed and again in crumbs. Arrange in shallow baking pan. Dot with fat. Bake 10 minutes in hot oven. Add water, cover and lower fire and bake 35 minutes in moderate oven.

Creole Rice and Tomatoes
 1-1-2 cups boiled rice
 3 tablespoons flour
 1-2 teaspoon salt
 1-4 teaspoon pepper
 3 tablespoons chopped onions
 2 tablespoons chopped green peppers

1-2 cups tomatoes
 3 tablespoons butter
 Blend flour with rice. Add rest of ingredients and bake 25 minutes in greased baking dish in moderate oven.

Apple Cobbler
 2-1-2 cups sliced apples
 1 tablespoon flour
 2 tablespoons butter
 1-2 cup sugar
 1 teaspoon cinnamon
 1-2 teaspoon vanilla
 1 teaspoon lemon juice
 2-3 cup water

Blend dapples with flour and butter. Add rest of ingredients and pour into buttered, shallow baking pan. Cover with crust.

Crust
 1-1-2 cups flour
 2 tablespoons baking powder
 4 tablespoons fat
 1-4 teaspoon salt
 1-3 cup milk
 1-2 cup brown sugar
 2 tablespoons butter

Mix flour, baking powder and salt. Cut in fat with knife. Slowly add milk; when soft dough forms pat out and fit over apples. Bake 4 holes in top. Bake 15 minutes in moderate oven. Spread with sugar and butter and bake 20 minutes.

PLANT HOLLYHOCKS THIS MONTH—

Hollyhocks are a hardy flower and planted one year will surely come up the next. We know of one spot where a sturdy hollyhock grew with its mates for several years, when it was decided that they were not wanted there any more. They were dug out and pulled out of this particular spot and to make things sure a pile of rock covered the spot, when a and behold, the same pretty colored hollyhock, (it is red), struggled up between the crevices crooked neck out to where it could find the sun. Plant hollyhocks in August. They'll be with you next year.

Child's Philosophic Insight Surprises

By Olive Roberts Barton
"Mama!"
 Rosie pulled her mother's arm and stared with stricken eyes at the legless man, selling pencils. It was the first time in her young sheltered life that she had seen human tragedy in physical form. The man held out his pencils toward the child mutely, but Rosie did not see them. She was horribly fascinated by the shortened body on the hot pavement.

In her heart her mother was like a child, sensitive to other people's suffering and misfortune and inclined to brood. She had no patience with those who insisted that beggars were hard cases and cheats. She admired the courage that gather the few shreds of life together and carried on with incomplete bodies and even damaged minds.

Analyzing Misfortune
 Rosie insisted on talking about the man. "Let us wait until we get to the restaurant," said her mother. "It's lunch time now and we can talk better there."

Later she brought up the subject herself. "Darling, this is a lovely world that you and I live in, but you will learn as you grow up that there are many people who have a great deal of trouble. Some are sick, others get hurt and sometimes it is things we cannot see. You will not be able to go around always without noticing many things that will make you sad."

"But sadness doesn't do any good at all. It is better to help in some way. You and I could not prevent that poor man from losing his legs, could we?"

"No-o-o," Rosie answered thoughtfully. "What did that to his legs?"

Philosophic Attitude
 "I don't know, but I am sure it was long ago. But now I am not going to worry all afternoon about him, dear, and you need not, either. We will go to a movie and enjoy the rest of the day."

"But I can't have a good time, mother. I can't forget him." "No, don't forget him," said mother gently, "but make it like this. Say to yourself, 'I am a happy girl and I am going to be still more happy by thinking how very fortunate I am. And I am going to be very kind and thoughtful and try to help other people in trouble.'"

Rosie smiled suddenly. "All right. You mean that you can be sorry and be very happy, too, don't you?" she said.

"Child, you do surprise me," sighed her mother. "That's it exactly."

Co-ed Wants Freak Career

"Right this way, la-dee-ees and gentlemen. Step inside and see the most astounding show on Coney Island, a stellar presentation of the most amazing, stupendous, colossal . . . That's the kind of thing Ann Sibley, missing Antioch College co-ed found working as a Coney Island freak show Barker, wants to continue doing, she announced, refusing to return to college. In addition to being Barker, she is "The Girl with the Missing Head." Here she is (in white dress), extolling the curious merits of her roommate, the Tattooed Lady, to passing crowds, while other members of the sideshow look on.

Mrs. William Daub Is Given Shower

Mrs. William Daub of Rochelle, was tendered a miscellaneous shower Wednesday by the Misses Velma Krug and Winnogene Knapp, at the home of the latter in Ashton. The afternoon was spent playing ping pong and croquet.

At the close of the games a short program was enjoyed, after which little Miriam O'May, daintily dressed as Cupid, carrying a bow and arrow, came to Mrs. Daub and led her to an attractive pile of gifts, brought by Laura's many friends.

The guests were seated at attractive tables about the lawn, daintily decorated with garden flowers, and tempting refreshments were served by the hostesses. The bride's table was especially pretty with a miniature bride and groom as a centerpiece. It was the same used at the sixtieth wedding anniversary of Mr. and Mrs. Wm. Hunt.

Out of town guests included Mrs. Eva Billmire, Mrs. Robert E. Peterson, Mrs. A. E. Daub, Mrs. Carl Greve, Miss Bettie Talcott and Mrs. Harold Johnson, of Rochelle; Miss Grace Butler, of Dixon; the girls of the class of 1935 of which Mrs. Daub was a member, and the members of the girl's baseball team.

Good Program for Nelson H. B. Unit

The Nelson Unit of Home Bureau met at the home of Mrs. C. Morris Tuesday afternoon with an attendance of sixteen members and one visitor. After songs and business routine the following enjoyable program was given:

Vocal solo, guitar accompaniment—Ruth Wright.
 Reading—Mrs. Helen Scholl.
 Vocal Solo—Bobby Morris.
 Reading—Gladys Askinson.

As there was no lesson, a social time and games were enjoyed.

The picnic will be held with the Community Club at Lawrence Park, Aug. 27th.

The next meeting will be held with Mrs. Lee Ransom in Dixon and an election of officers will be held.

MISS GRANTED A GUEST DR. BJORNEBY HOME—

Miss Carolyn Granrud of Minneapolis is enjoying a visit at the home of her grandparents, Dr. and Mrs. A. G. Bjorneby in Dixon.

TO SPEND WEEK AT FLYNN COTTAGE—

Mrs. Julius Hirschfield of Chicago will spend the week at the J. S. Flynn cottage at Grand Detour.

WHAT THE NEWS WAS AROUND DIXON IN YEARS GONE BY

50 YEARS AGO

Hon. Emory A. Storrs of Chicago delivered the eulogy to the memory of the late Ulysses S. Grant at the memorial service conducted at the court house square.

The annual address to the Alumni association of the college will be delivered this evening at the Chapel hall by E. E. Wingert of the scientific class of '34. His subject is one made memorable by the recent events and is embodied in the words "Let us Have Peace."

A raid was made on the second story rooms of the Washington House Saturday night and considerable money stolen.

25 YEARS AGO

A crowd estimated at 7500 persons heard Mme. Schumann-Henk in her concert at the Assembly park last evening.

One hundred members of Dixon Commandary, Knights Templar left for Chicago to attend the annual convocation.

10 YEARS AGO

Former students of the Dixon college voted to make the alumni reunion an annual affair.

DAILY HEALTH

TEETH AND THE PREGNANT WOMAN: II

From our knowledge of the way the body absorbs and uses calcium, we know that the mere eating of large amounts of calcium-containing foods does not suffice to protect the individual against calcium starvation.

Not the calcium which enters the gastro-intestinal tract, but the calcium which is absorbed into the body counts. Absorption depends upon the presence within the body of a substance known as ergosterol. This substance we associate closely with vitamin D.

It is now well known that the effects of vitamin D may be gained by irradiating the skin—that is, by sunbathing or by exposing the skin to artificially produced ultraviolet rays.

Hence, the pregnant woman may sunbathe judiciously, or in winter time may be treated with artificial ultraviolet rays, or better and simpler still, may take vitamin D in the form of viosterol, haliver oil, or cod-liver oil.

By including a sufficient amount of calcium and phosphorus in her diet, the pregnant woman not only protects herself against calcium and phosphorus starvation, but also favors the proper development of her child.

In addition to taking these dietary precautions affecting her teeth, the pregnant woman should visit her dentist at least twice during her pregnancy. She should have her teeth properly cleaned and carefully scrutinized.

Needless to say, the above points are offered as general knowledge of the subject. For specific diets, etc. the pregnant woman must consult her own physician.

The supervision of her diet requires first-hand knowledge of her condition and skillful adjustment of the prescribed dietary to her need. It is not safe to be guided by another woman's experience.

FISH DINNER WITH FROZEN RELISH

MANY of us avoid entertaining on Friday because it is a day on which some guest may be embarrassed by the presence of meat at the table, and yet feel hesitant about serving a really good meal without it. There need be no reluctance on this score, if the fish served is perfectly fresh, well cleaned and skillfully cooked. Attractive garnishings add to its appeal.

Frozen Cucumber Relish is a perfect accompaniment to such an entrée, as it is tart, cold, and delicately colored, and makes a pleasing change from the usual fish sauces.

FROZEN CUCUMBER RELISH

1 large or 2 medium cucumbers
 1 1/2 teaspoon juice
 3 tablespoons white pepper
 3 tablespoons Speck of cayenne
 3 tablespoons 16 campfire marshmallows
 1/2 teaspoon salt
 2 egg whites
 Peel and grate enough cucumber to make 1 1/2 cups of pulp. Add all the seasonings and mix well. Moan while melt the campfire marshmallows in top of a double boiler and beat them until smooth. Combine with the cucumber mixture and stir until well blended. Place in refrigerator and freeze to a mush. Stir thoroughly. Fold in the whipped egg whites lightly, but thoroughly. Return to freezing tray and freeze to a mush. Stir again and finish freezing. Serve in frappe glasses with the fish or meat course. Serves six to eight.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pop . . . Vigor . . . Vim

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

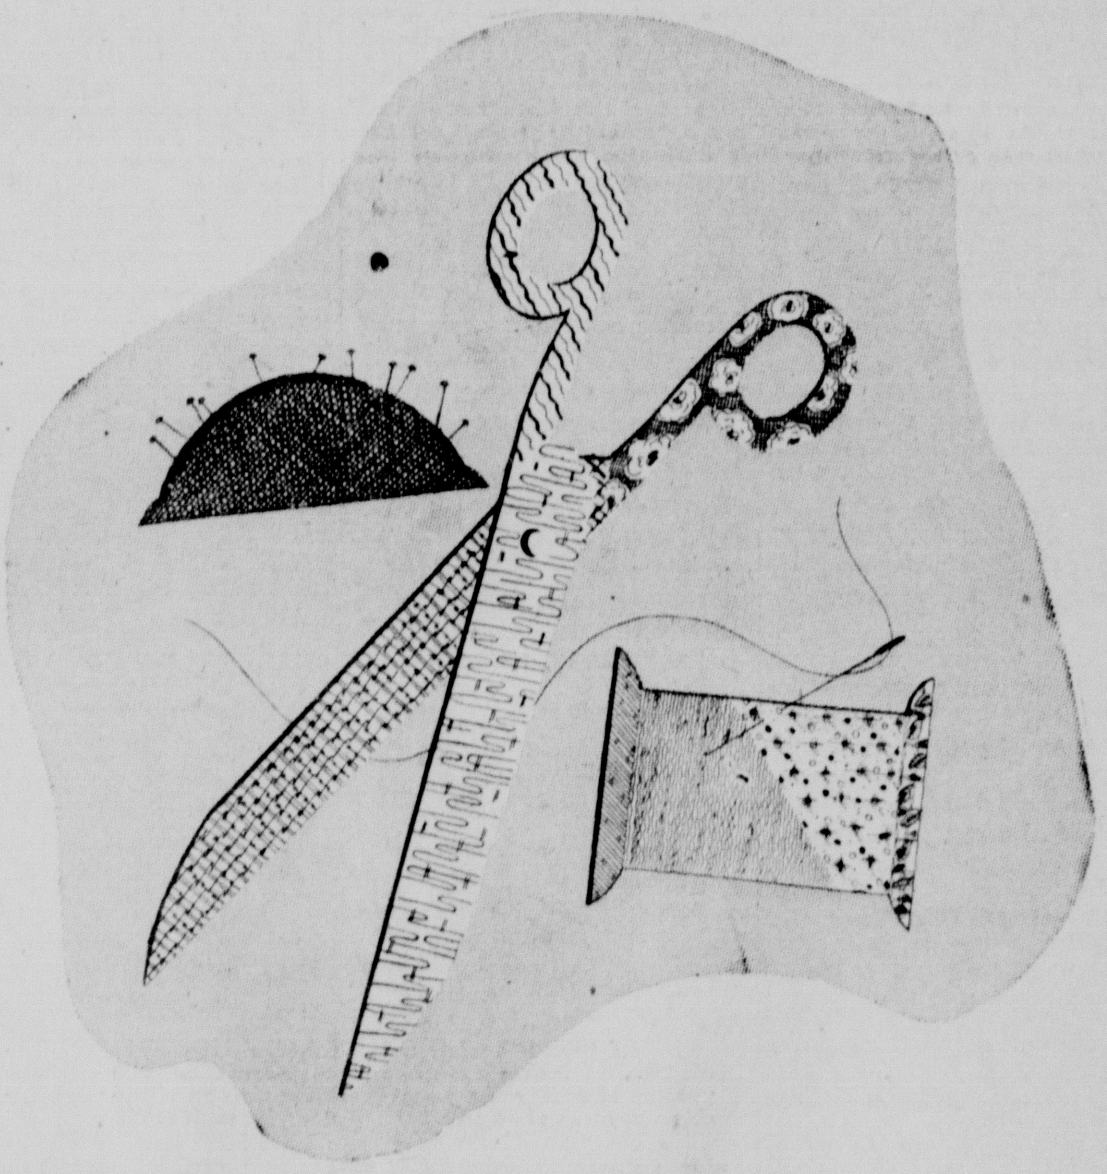

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints a day and get rid of more than 3 pounds of waste matter, your body will take up these poisons causing serious trouble. Don't wait. Ask your druggist for DOAN'S PILLS . . . an old prescription . . . which has been used successfully by millions of kidney sufferers for over 40 years. They give happy relief and will help to wash out the 15 MILES of kidney tubes. Get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

On to Cool Vacation Land!

Open Roads Point to Upper Michigan

Automobile travel on middle western highways this summer is reaching the highest peak since 1929, and no small portion of that traffic is composed of tourists from the middle west headed for the Upper Peninsula of Michigan, one of the leading vacation meccas in the central states and romantically known as "The Land of Hiawatha."

Diversions of great variety for vacationers of all temperaments, tastes and pocketbooks give the territory universal appeal. For those who like the sophisticated recreations there are smart resorts, such as Mackinac Island and Marquette, with their night clubs, golfing, tennis and swimming. The more than 1,000 inland lakes and myriad rushing trout streams in the area constitute a game fishing paradise for rod and reel followers. Enormous cool stretches of heavily timbered land, honeycombed with crystal lakes, streams and waterfalls, invite the tourist, camper and nature lover, and offer camera enthusiasts rare opportunities to obtain pictures of deer and other wild life. Historical and Indian lore going back to the early French explorers is to be found throughout the region, whose copper district is also one of the United States' most interesting geological sections.

Bounded by Lakes Superior, Huron, and Michigan, the average annual summer temperature of the Upper Peninsula is 64°, and the strong prevailing winds constantly sweeping off the Great Lakes make the mosquito an unknown insect on northern shores. The combination of the pine woods smell, water-washed air, and an altitude approximating the foothills of the Rockies assures relief to visiting hay fever and asthma victims.

Tours over the improved roads traversing the three National Forests of the Upper Peninsula, all open to the public and offering recreational and camping facilities,

thrill the motorist with their chain of scenic wonders. Ottawa spreads over 716,956 acres in the western counties; Hiawatha Forest comprises 609,002 in the central counties; and eastward Marquette Forest, the oldest of the three units, spreads over 490,000 acres. The lakes and numerous streams in these forests are famous for game fishing.

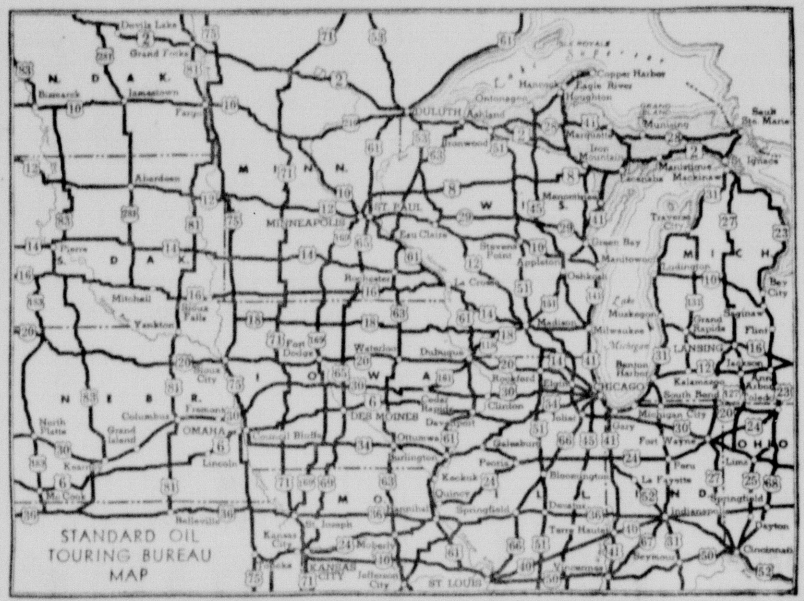

Ojibway and Menominee Indians still roam the Upper Peninsula. A census now being taken is expected to reveal their population as 3,500. Women of these tribes are skillful in making baskets. The men have not lost their racial heritage of adeptness in hunting, fishing, and woodcraft. They cook complete meals over fires no bigger than one hand, always built in a cleared place to prevent possible loss of their beloved timber.

Fort Wilkins State Park at the terminus of US-41 between Lake Superior and Lake Fanny Hooe in Keweenaw County affords visitors a view of one of the oldest forts in the United States, twenty-four buildings situated in the midst of breath-taking scenic grandeur, and the trip there through the Keweenaw peninsula is a succession of magnificent vistas.

Nor will the roving tourist want to miss the Pictured Rocks, which start at Munising and extend 15 miles eastward along Superior's shores in weird, grotesque shapes defying description. Legend has it that Father Marquette here inscribed the maltese cross. Near Marquette, a resort center in the heart of scenic loveliness, is Presque Isle Point, a government game preserve where tourists nightly can watch the feeding of hundreds of deer. The famed Mackinac Island in Lake Huron, beyond which are the interesting Les Cheneaux Islands, is another of the perfect vacation spots dotting the Upper Peninsula in such profusion as to make impossible mention of all of them.

- (1) Typical of Upper Peninsula scenic beauty is this view at Esrey Park in Keweenaw Land.
- (2) This shot of an Ojibway Indian showing his son the art of building a safe campfire was taken on the shore of Keweenaw Bay.
- (3) 32 pound Northern Pike caught in Gratiot Lake, Keweenaw County, by Harry T. Hosking of Calumet, Michigan.
- (4) This view of Keweenaw Golf course demonstrates how Upper Peninsula courses combine sporting qualities and scenic magnificence.

Experienced travelers frequently have voted Grand Island and Isle Royale in Lake Superior among America's most unusual scenic places. Ferries convey automobiles from Munising to Grand Island, on which motorist routes lead through dense forests of spruce, pine, maple, and birch profusely inhabited by deer and wild bird and game life. In the central part of the island is a large lake at a considerably higher altitude than Lake Superior, and excellent hotel accommodations may be had in this primitive wilderness. Dotted with charming lakes, beautifully wooded, provided with four excellent hotels, and possessing what is probably the largest single moose herd on the North American continent, Isle Royale with its

ALL FREE MASON LODGES IN GER-MANY WIPED OUT

Hitler Orders Them Dissolved by Saturday; "To Purify Blood"

Berlin, Aug. 8.—(AP)—Reichsfuehrer Adolf Hitler's newspaper, Voelkischer Beobachter, announced today that all Free Mason lodges throughout the Reich would come to an end Saturday.

On that day, the newspaper said, the state lodge of Saxony, the Dresden Great Lodge and the "German Brethren Chain" of Leipzig would be dissolved.

After dissolution of the old Prussian Free Mason lodge July 21 and the gradual disappearance of the smaller lodges in a year-long campaign, the Free Masons in Germany—first so-called "state enemies"—thus would be wiped out completely.

Hitler's organ, asserting the secret aim of Free Masonry was a Jewish world republic, said the forthcoming dissolution would "finish a special chapter in world history, and the guardian of the Nazi ideal will be alert."

"To Purify Blood"
Jews accused of trying to hide their race to escape anti-Semitism appeared to stand in the center of Nazi determination to purify German blood.

Der Angriff, newspaper of Dr. Paul Joseph Goebbels, minister of propaganda, directed an attack against Jews covering up by becoming Christians, and asked how much longer the Protestant church would continue to baptize Jews.

The newspaper named two protestant ministers in Berlin who it said have baptized 14 Jews since the Nazis have come to power. "Today the youngest boy knows the orthodox Jew cannot be made a believing Christian through a handful of water," said Der Angriff.

"The secret police also have known baptised Jews to use willingly the baptismal certificate for what is little more than a swindle in that former Protestant Moses Pinkenstein after a year becomes Catholic Moses Pinkenstein."

"His personal record later shows he came from the ranks of Protestantism to Catholicism."

NO CHANCE FOR G. O. P. AGAINST ALL THAT MONEY

—EX-SENATOR FESS

Ohio Republican is Pessimistic Over Party's Chance

Moody, N. Y. Aug. 8—(AP)—Former Senator Simeon D. Fess, Ohio Republican, expressed the belief today that expenditures of the Roosevelt administration would tend to bring about a Democratic victory in 1936.

"I don't see how the strongest Republican without all that money next year can beat the weakest Democrat with nearly five billion dollars at his disposal," said Fess, former Republican national chairman.

He took the long view toward 1940 for Republican success. "If former President Hoover will continue his wise counsel to the party as in the past," he said, "he should be the strongest factor in the country in 1940."

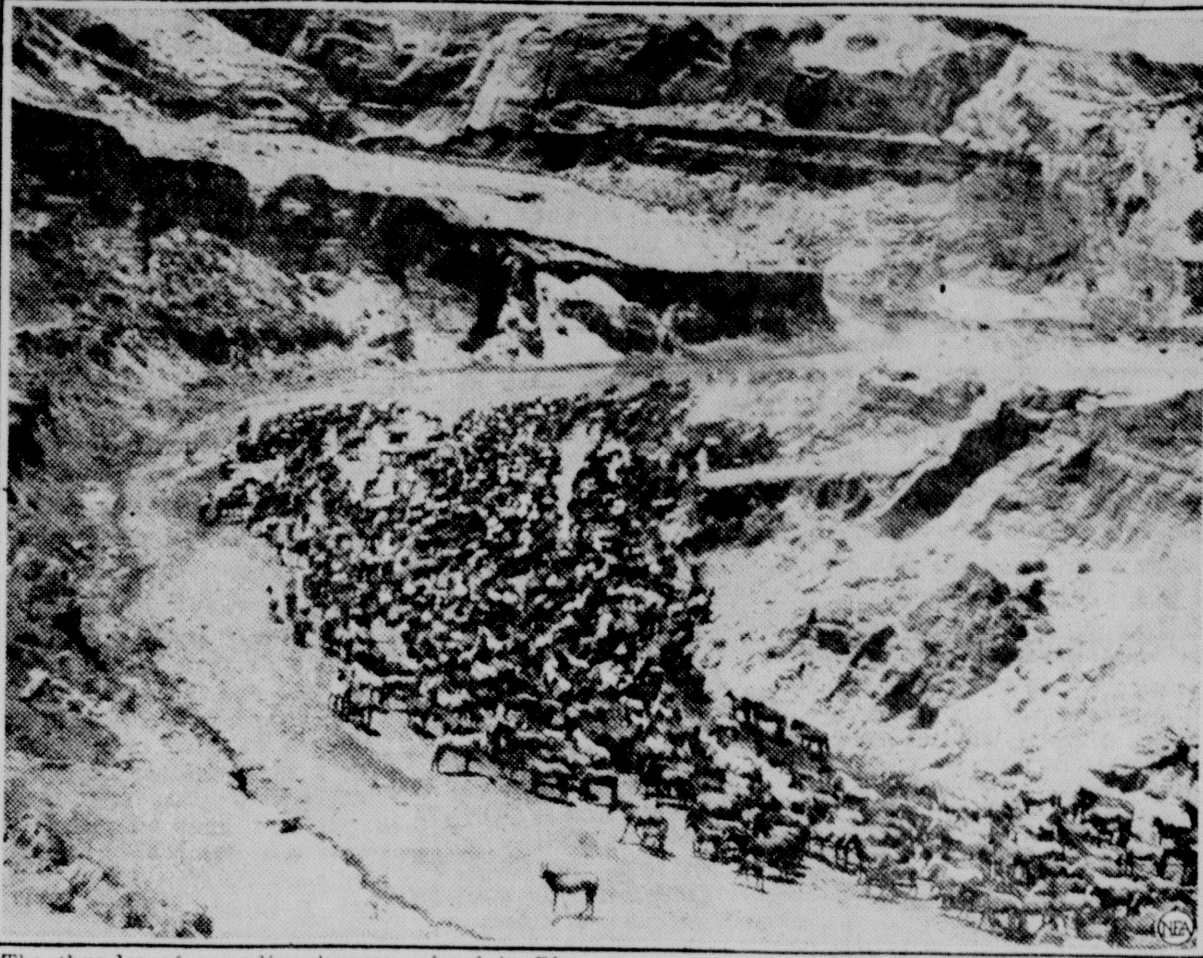

His own counsel to the party, he said, was to reply on principles and not candidates.

Rely on Principles

"The party must take a definite stand upon principles—we do not want any one who is for the New Deal or any part of it; we don't want anyone tinged with Socialism; we don't want anyone who favors inflation," he said.

"It is too early for the candidates to speak out, anyway. Those who have been trying to see how much of the farmer vote or the soldier vote or any other vote they can muster by pronouncements now would find they had a victory

A Thrilling Stampede—Especially at \$3 a Head

The thunder of pounding hooves echoed in Blue canyon as these 1500 wild horses raced frantically through the narrow cut in spine-tingling stampede. A realistic thriller of the Old West it was—but at \$3 a head for the horses all the romance was lost for the movie moguls who staged the rush in filming a western near Tuba City, Ariz. Only after strenuous efforts were the movie men able to find the horses. Then the tribe of Indians who owned them took advantage of the monopoly to charge a stiff price for the steeds and an added fee for roundup services.

of the bitterest sort, with certain defeat to follow.

"The younger wing of the party has produced no one of presidential timber. The older wing—well, I can't speak for publication."

The eruption of one volcano can cause several years of cooler temperatures over the entire earth. Dust particles in the air impede the heat rays coming from the sun. In 1783, Mount Asama, Japan, erupted, and the three following

years were very cold throughout the world.

Forty-two bushels of every 100 bushels of corn produced in this country are fed to hogs, 18 to cattle and 14 to horses.

The tsetse fly, which causes sleeping sickness, lives in sharply defined areas, and it is possible to travel within 20 yards of one of these areas in safety.

BORAH TALKED AS CANDIDATE BY ADMIRERS

Washington, Aug. 8—(AP)—Some of the most intimate political associates of Senator William E. Borah of Idaho are pondering whether to put him forward actively for the Republican presidential nomination next year.

The decision hinges largely on the question whether the senator is willing to run. He has kept silent on that point, but a national-known Republican who is his close friend said today:

"If Borah could be assured of an adequate expense fund and a good campaign manager, I believe he would enter all the presidential primaries, feeling as he does now." It is not the first time the Idaho veteran has listened to admirers urging him to make a try for the presidency, but always before his decision has been against it.

Now, at 70, he finds his party looking for a candidate who will make the Constitution a ringing issue, but who has sufficient liberal leanings to appeal to the western independent wing of Republicanism.

It happens that the Constitution is Borah's favorite issue. He has spoken on that issue year in and year out. No other argument is quite so appealing to him as a Constitutional argument.

Usually spoken of as a leader of the Republican "irregulars," Borah actually has stayed "regular" so far as national campaigns are concerned.

Preston Laurette, Golden Gloves district winner at Streator, will tangle with Russell Ringenberger, Central, in the feature bout of a seven match card at the airport on Friday night beginning at 8:30 o'clock. Both fighters are new on the Dixon boxing cards and should provide fast action in the light-weight class. Laurette weighs 132 pounds. Ringenberger, called the "Pride of Chillicothe" is considered the best fighter of his weight in Illinois.

Other thrilling matches include a fast encounter between Vernon Stunkel, Steward featherweight, against Vic Fitzpatrick of Savanna. Stunkel won the acclaim of the crowd last week by stowing away Pete Vozakis of Moline in one of the fastest matches in the feather-weight division on the local card this season. Stunkel's brother, Maurice, also popular with Dixon audiences will battle Earl Underwood of Chillicothe. Stunkel battered Doty of Savanna into a knockout Friday, July 26.

Guerrieri Meets Gayford
Linto Guerrieri of Cherry has been assigned to stop the lethal wallop of Max Gayford which has twice extended Killer Hess of Woodstock flat upon the canvas. Hess in both fights appeared to be winning the upper hand but each time a sudden jolting right hook made him see stars. Whether or not Guerrieri can withstand this punch remains to be seen.

Ernest Wilson of Marseilles and Eddie Martinelli of Spring Valley will collide in another welterweight mixup. Both are new to Dixon audiences this summer. Dixie Caudle of DeKalb is matched with Chuck Barney of Cherry. Richard Virgil, 145 pound boxer of Mendota will tangle with a fighter who has proven himself in Dixon rings, Bill Doty.

MISS VAN WIE DOFFS GOLFING CHAMPIONSHIP

Retires From Stiff Tourney Play; To Play "For Fun"

Ligonier, Pa., Aug. 7.—(AP)—This country's No. 1 woman golfer turned to the lighter side of the game today and prepared to play only for "fun" henceforth.

Virginia Van Wie, three times national champion, announced she is tossing the title on the open market this year and added:

"I'm just tired of playing tournament golf and intend to play only for fun in the future."

Her vaudeville marked the close of a sensational climb to the heights of golfing in 1932. That year, Miss Van Wie won her first national title by defeating Glenna Collette Vare. Then she beat Helen Hicks in 1933 and Dorothy Traug last year.

Miss Van Wie was the fourth to hold the women's golfing title three years in a row.

She denied laughingly that her retirement may have been inspired by romance and asserted: "Getting married? No, nothing at all like that."

It is estimated that there are 752,000 school teachers in the United States.

list, measured his retreating foe for a few fleeting seconds and then pumped his deadly blows to the head and body, getting only one wild, ineffective smash on the side of his head in return.

Three times the Kingfish was battered to the canvas, but he stumbled to his sagging feet each time until the Brown Bomber ripped in two vicious left hooks to the body that sent him down to stay. A pitiful figure, dazed and forlorn, he squatted on the bottom rope, unable to move his paralyzed legs.

Pleads For Mercy
"Don't let him hit me again, don't let him," he pleaded with the referee. "I'm through."

As the statuesque Negro stood in his corner, receiving a tumultuous ovation from the crowd, Referee McGarrity and Levinsky's handlers helped the fallen Kingfish to his corner, where his manager, Harold Steinman, stood with blank amazement written over his face. He had trained his fighter for almost a month and had him down to his best fighting weight of 197½, or ¾ of a pound less than Louis. Levinsky hadn't lasted a round, suffering his most lachrymose defeat in what was known to be his last stand.

Louis and his managers, elated over the result and the crowd that paid \$192,906.50, immediately went into huddles with three groups, who seek to match Louis, winner of 24 straight fights since he turned professional a little more than a year ago, against Max Baer in September.

Three Factions After Louis
The three promotional factions after a Baer-Louis fight were the Twentieth Century Sporting Club of New York, led by Mike Jacobs; Joe Foley and George Getz of Chicago, who promoted last night's fight with the aid of Jacobs, and the Chicago Stadium Corporation.

"None of us know yet where the fight will take place," said Ancil Hoffman, Baer's manager, "but it's a cinch to be closed and it will be fought on either September 25 or 28 in New York or Chicago. If it's here, it undoubtedly will be at Soldier Field. That knockout punch of Louis' against Baer should be worth a crowd of 100,000 at Soldier Field with a \$25 top. Louis? Sure he's good, but I don't think he'll last against Max. Max isn't Levinsky or Primo Carnera, you know."

Won 20 by Knockouts
Louis, winner of 20 of his 24 fights by knockouts and whose foes have averaged 4.5 rounds against

Continuing successful defense of the City softball league lead the Eichlers Clothiers turned back the challenging Buster Browns to 3 Wednesday night. The Eichlers touched Fordham for ten hits and the Browns hit Morris for six.

In the second game the Reynolds Wires defeated the Winks Specials by a 10 to 7 score. Each team registered ten hits in the encounter. Following are the scores by innings:

Buster Browns	100	200	0	—3	6	4
Eichlers	031	101	x	—6	10	1
Fordham and Lange; Morris and Burke.						
Winks Specials	223	000	0	—7	10	4
Reynolds Wire	154	000	x	—10	10	6
Strong and C. Daniels, R. Daniels; R. Winebrenner and Trotter.						

him, said he was anxious to meet Baer.

"I hope Mr. Baer now will fight me," he said without a change in expression. "Levinsky only hit me one punch and that never hurt me."

"My advice to Baer is to duck," Levinsky said later. "Say, that guy Louis can hit harder than Baer."

Fifty per cent of the net receipts went to the fighters, Louis received 30 per cent, or \$47,061.81 and Levinsky 20 per cent or \$31,374.55, a tidy sum for less than two minutes work.

MOTHER REJOICES

Detroit, Aug. 8.—(AP)—Joe Louis' mother, who declined to accompany the Brown Bomber to Chicago last night to see the fireworks because she "had a feelin'" admitted today she played the wrong hunch.

"I don't know why I didn't feel so confident this time," she said. "I just had the wrong hunch. But I'm mighty proud of him. He sure did the job in just a few ticks."

The neighborhood of Joe's home was, if possible, more of a bedlam when the news of his one round victory over "that Kingfish Levinsky," came in than when the Bomber won over Primo Carnera. "Ev'body went craa-zy!" was the way Mrs. Lillian Longpre, who

rushed in to tell Joe's mother of the outcome, expressed it.

On Hastings street, the announcement of the technical knockout caught the crowds slightly unprepared. Joe had told his friends it would be the second round, and it was the second round they waited for.

In a moment, however, the din was on, with pistol shots, automobile backfire, the horns and shouts contributing to the celebration. Someone even got so excited he raked Floyd Johnson with the business end of a razor, but Floyd hurried to a hospital, got his wound dressed and rushed back to the celebration.

CHAMP'S COMMENT

Hazleton, Pa., Aug. 8.—(AP)—"He must have a punch!" was the terse comment of Jimmy Braddock, world heavyweight champion, today on the outcome of the Louis-Levinsky fight in Chicago.

His manager, Joe Gould, said neither Carnera nor Levinsky had given Louis much of a test.

An old superstition makes the eating of pork on New York's Day an omen of good luck during the ensuing year in some parts of Germany.

St. Louis, Aug. 8.—(AP)—Playing the outfield on a major league baseball team is a very soft touch for Julius Joseph "Moose" Solters, a current hitting sensation of the American league.

"Big Moose," acquired by Rogers Hornsby, manager of the Browns, in a trade with the Boston Red Sox two months ago, is hitting a mere .374 on a last-place club.

Born of Hungarian parents in Pittsburgh 27 years ago, Solters worked as a youth on various jobs requiring a strong back and little head work. He labored as a grocery clerk, a baker's assistant, a steel worker, a sheet metal worker, a coal miner, a truck driver and ditch digger, then decided to use his head.

"I had always loved baseball, and as a kid shagged flies during batting practice at Forbes field, where the Pirates play," he explained today. "In 1927 I got a job in organized baseball with a club in the middle-Atlantic league, and have been at it ever since."

And "Moose" is very well satisfied.

Two Dixon softball teams invaded foreign fields this week and were handed disastrous defeats.

The Knacks Leaders journeyed to Amboy Tuesday and absorbed a 9 to 5 whipping at the hands of the All-Stars at the Farm Bureau field and next week Thursday will attempt to get revenge at the expense of Nachusa according to reports today.

On the same day the Buster Browns invaded Tampico and returned on the short end of a humiliating 13 to 3 score. The Browns used three pitchers in an attempt to halt Tampico. Merry, Tampico hurler struck out 17 men compared to ten strikeouts recorded by all three Browns hurlers. Dixon was held minus any tallies until Wolford produced three runs in the ninth inning. Batteries for Dixon were Fordham, Swain, Lebre and Lang, and for Tampico, Merry and O'Brien.

Work has been started on a dam on the San Juan river near Mexalen, Tex., which is calculated to bring 500,000 acres of Mexican land into cultivation.

BOYS OF SIXTH REGIMENT WILL MEET TWO DAYS

Annual Reunion of Spanish War Regiment at Morrison Soon

The 10th annual reunion of the Sixth Illinois Volunteer Infantry of the Spanish American war veterans will take place in Morrison next Sunday and Monday, August 11 and 12. Between 250 and 300 persons are expected there from a dozen or more northern and central Illinois cities to attend the reunion.

Registration for both the war veterans and the members of the auxiliary will be held in the municipal building all of Sunday and until noon on Monday. Fred E. Brown of Dixon, secretary and treasurer of the veterans' organization, and Alice Channon, auxiliary secretary, will be in charge of registrations.

At 2:30 Sunday afternoon a joint memorial service will be held. The memorial service will take place at Grove Hill cemetery unless unfavorable weather prevails in which case the service will be held in the municipal building. Mayor C. W. Nice will give the welcome. A quartet, composed of Louis Bradley, John Fletcher, Geo. Greene and Jay Vogler, will sing. Mrs. John Fletcher will accompany the quartet. H. J. Randall will deliver the address.

There will be nothing more on the program until the buffet lunch at the country club. This will be served at 6:30. While there will be no formal program at the supper there will be some informal talks and other entertainment at the campfire.

This year for the first time, a campfire program has been planned. The fire will be located south of

the first tee and the visitors will be allowed to sit on the knoll nearby where dampness and insects will not bother them. One man from each company represented will give a short talk relating some incident that happened during the days of the War of '98. Between each of these addresses there will be singing of the old time songs. Lyle Wilcox of Sterling and Walter Drury of Fulton will lead the community singing. Dept. Commander J. Thomas, State of Illinois, U. S. W. V., will be at the campfire meeting and will speak.

Business Meeting
Monday morning at 9:00 both the veterans and the auxiliary members will hold business meetings. Officers will be elected for the coming year. The place of the next reunion will be designated, and a number of other important matters will be discussed.

The climatic event of the two day reunion will take place Monday noon with the banquet in the basement of the municipal building. The dinner will be served by the Morrison American Legion Auxiliary at 12:15. A banquet program will take place after the dinner. Walter Drury will be master of ceremonies. Mrs. LeVera Waite Smith will sing two solos. Mrs. Walter Drury will play two selections on the piano. Gen. D. Jack Foster of Chicago will be present and will speak briefly. There will be other talks by notables present before W. J. Abel of Morrison makes the main address of the banquet program. Eileen Mae Bradley of Prairieville will read "Just An Old War Veteran."

Monday afternoon at 3:30 there will be a parade through the streets of the city headed by the Morrison high school band. The soldiers will march by companies in the parade. Following the parade there will be a sight seeing trip to all the places of interest in the city. This will include the factories, park, country club, etc.

ing was held in the afternoon electing Thomas Bracken of Sterling, as president; Mrs. George Pfundstein of Prairieville as secretary-treasurer and Pluribus Powell of Polo as reporting secretary. After the business meeting a nice program was held, followed by games which were enjoyed by all.

Kenneth Wechsler is spending this week with his aunt, Mrs. Landis Shable at Penrose.

Mr. and Mrs. Elmo Frerichs and Mrs. Frerich's brother, Mr. McGee and family spent Sunday at Lowell Park picnicking.

Mr. and Mrs. McGee and daughters Patsy and Dorothy spent the past week with Mr. McGee's sister, Mrs. Elmo Frerichs and family, returning to their home Saturday.

Mr. and Mrs. Roscoe Light of Gap Grove returned home Monday from Kokomo, Ind., where they had been visiting Mr. Light's parents. While there they were in an auto accident. Mr. and Mrs. Light both received slight injuries while Mr. Light's mother received two cracked ribs and bruises. The car was badly damaged.

Decatur Mill is Fuel for Flames

Decatur, Ill., Aug. 8.—(AP)—The Chapman-Doake Milling Co. plant was destroyed by fire of undetermined origin yesterday with a loss estimated by R. W. Chapman, one of the owners, of between \$130,000 and \$150,000.

The mill burned almost two hours. One of the largest gas storage tanks in this part of the state, with a capacity of 10,000,000 cubic feet, is situated about 150 yards from the burned mill, almost in the heart of the city. Firemen were aided in attempts to save the tanks by the wind which blew the sparks in the opposite direction.

R. C. Roake, a co-owner of the mill, said an explosion of grain dust apparently started the blaze. The night watchman reported hearing a noise just before finding the entire second floor in flames.

STOCKHOLDERS TO PAY
Chicago—A final decree directing 342 stockholders of the Chicago Joint Stock Land bank to pay approximately \$1,000,000 to the bank's receiver as stock assessments was entered by Federal Judge John P. Barnes. The bank failed about two years ago.

Flying Auto Here! Now Watch for Sky Traffic Jams

"Let's take the old car and go flying for an hour" may become the national evensong if the amazing craft pictured above fulfills the promise of its inventor. Tested in Los Angeles, Waldo Waterman's "flying auto" amazed spectators with its efficient performance, and it will be given further tests in Washington. The plane is tailless, has propeller and pusher-type motor at the rear of the cabin, with elevators and rudders on the wing tips. Powered with a 95-horsepower air-cooled engine, the plane attains a top speed of 110 miles an hour. Waterman estimates that it will cost about \$1000.

EIGHTH WONDER OF THE WORLD

THE integrity that was China's for more than 2000 years was symbolized by the unique wall that lined its northern border. Today both China's steadfastness and that wall, which has been called the "eighth wonder of the world," are pierced by Japanese imperialism.

Once it had been started, in an effort to keep out marauding invaders from the north, the wall rose almost to completion of its 1500-mile length under the driving power of the Emperor Chin Shih Huang Ti about the third century B. C. It received its final addition, however, only 300 years ago.

Some of the stamps of China, as shown below, give a clear picture of this wall, a line of masonry about 22 feet high and 20 feet wide, crossing valleys and mountains regardless of the difficult terrain.

CARDS SETTLE BEHIND CUBS BY ONE GAME

Occupy Same Place as That Before Last Comeback

By ORLO ROBERTSON

Associated Press Sports Writer

The St. Louis Cardinals found themselves today in much the same position they occupied a month ago when they started the climb that carried them to the place where their last series with the New York Giants was labelled "crucial."

After winning 18 out of 19 games to pull up from third place and seriously threaten the league leaders, the world champions slipped into a nose dive. Before they righted themselves, they had dropped nine out of ten and again were looking up, not only to the Giants, but also to the Chicago Cubs.

Now they boast another string of victories, six in a row, and trail the Cubs by only one game, the same margin that separated them from the second place Chicagoans July 1. Then they were 1-2 games to the rear of the Giants. Today the difference was only 4-1-2 games.

Pitched Ninth Win

With Bill Hallahan pitching his ninth victory of the campaign, the Cards shaved a full game off the Cubs' advantage and a half-game off the idle Giants' margin yesterday by trimming the Cincinnati Reds 4 to 2. The Pittsburgh Pirates took the measure of the Cubs 6 to 0.

The Cleveland Indians made it two out of three under Steve O'Neill's management in splitting a doubleheader with the Chicago White Sox. The Indians won the first handily, 5 to 2, but dropped the second 2 to 1 in ten innings after Thornton Lee and Ray

Phelps had battled through nine innings of scoreless ball. In the only other games, the Yankees and Red Sox also split a twin Bill. Boston won the first 6 to 5 when Joe Cronin drove a home run over the left field fence with two on and two out in the ninth. The Yanks came back to take the nightcap 6 to 4. Lefty Grove received credit for the first. No. 14 of the season, while Vernon Gomez won the nightcap for his tenth.

MASSILLON GIRL SHOOTS AMAZING GOLF IN TOURNEY

Gets Two Birdies And Eagle on A Wet Course

Cleveland, Aug. 8.—(AP)—Representatives of six states were among the eight golf queens who met today in the quarter-finals of the women's Western tourney. California dominated the field with three survivors.

Three Ohioans and three from Illinois fell by the wayside in the thrilling second round play over this rain-soaked course yesterday, which saw Miss Eva Shorb, 17-year-old Massillon, O., high school girl, match the competitive course record of par 79.

The blonde Buckeye miss had two birdies and an eagle on her card, miraclous golf considering the condition of the layout. Ellamae Williams, 17-year-old Chicago miss, was the 5 and 4 victim of Miss Shorb's scoring spurge.

Still in the play today were Miss Peggy Wattles of Buffalo, N. Y., paired with Miss Marion Miley, of Lexington, Ky., the Trans-Mississippi champion; Miss Elizabeth Abbott of Los Angeles, paired with Miss Margaret Russell, slim brunette from Detroit, Mich.; Miss Shorb, blonde and petite, paired with Miss Marion Leachman of San Francisco, and Mrs. P. T. Atwood of Chicago, the only surviving married entrant, who was paired with Miss Barbara Thompson of Los Altos, Calif.

Davis Cup Will Remain British Claims Allison

New York, Aug. 7.—(AP)—Apparently convinced that future Davis Cup campaigns will be just as futile as this year's so long as Fred Perry and Bunny Austin play for England, America's international tennis team returned today on the liner Manhattan. They offered no alibi for their 5-0 shellacking.

The players who arrived were Wilmer Allison of Austin, Tex.; Johnny Van Ryn of Philadelphia; Donald Budge of Oakland, Cal. and Gene Mako of Los Angeles, besides non-playing captain Joseph Wear and Harry Hillman. Dartmouth track coach and athletic trainer. "Nobody is going to beat England as long as Fred Perry and Bunny Austin represents her in the Davis Cup competition," the 31-year-old Allison said. His teammates echoed the sentiment.

WOOD BREEZES THROUGH FIRST TOURNEY ROUND

Grass Courts Meet is Running True to Form

New York, Aug. 8.—(AP)—For the first time since play began, the Eastern grass court tennis championships are running true to form at the Westchester Country club at Rye.

The first two days saw a surprisingly large number of first rank players ushered to the sidelines, but yesterday the surviving favorites with one exception—Sidney B. Wood of the Davis Cup squad—swept through their third round matches in straight sets.

Wood was forced to extend himself to win from Martin Buxby of Miami, Fla., 6-4, 2-6, 6-3.

One of today's feature matches finds Frank Shields, on a short four-lough from the Hollywood film colony, meeting Wilmer Hines of Columbia, S. C., in a postponed third round match.

Frankie Parker of New Jersey and Bryan (Bitesy) Grant of Atlanta defeated Henry Prusoff of Seattle and Ralph Manich of Lorain, Ohio, to join Wood in the semi-finals.

Dorothy Andrus of Stamford, Conn., turned back a dangerous opponent in Helen Pedersen, also of Stamford. She clashes in the semi-finals with Mrs. Mary Greef Harris of Kansas City, who advanced at the expense of Eunice Dean of San Antonio.

The other semi-finalists in the women's division are Mrs. Agnes Lamme of Rye, who disposed of Mrs. Lillian Hester of New York, and Katherine Winthrop of Boston, who eliminated Theodosia Smith of Los Angeles.

SUN-TAN

BEGIN HERE TODAY

JO DARLEN breaks her engagement to BRET PAUL, college athlete star, because Bret objects to her taking a job as hostess at Great Lake Inn fashionable summer resort owned by wealthy DOUGLAS MARSH.

Jo goes to Great Lake. Marsh's eccentric mother dislikes her and causes difficulties. There are increased when PETER FRAGONET, film actor, arrives. Fragonet pays marked attention to Jo, asks her to marry him as soon as he can secure a divorce.

Bret Paul comes to Great Lake as life guard. BABS MONTGOMERY, school acquaintance who is jealous of Jo, is also there.

Fragonet leaves and returns when his film company undertakes to make part of a motion picture at the resort. He begs Jo to return to Hollywood with him. She delays her decision.

Marsh takes Jo to watch the film company in action.

NOW GO ON WITH THE STORY CHAPTER XXVIII

HERE comes Montez, whispered Marsh. "Like to meet her?"

Jo nodded, watching the actress. She was astonished to note that the storied and glamorous Lolita Montez was hardly older than herself. She had the faultless skin of youth, smooth and soft even beneath her thick make-up, and her mouth was as irresolute as a child's. It was only her eyes which betrayed that Lolita Montez was older either in experience or years.

But which of the two it was, Jo couldn't tell for the life of her discern.

As the actress caught sight of Marsh she smiled faintly and nodded her small dark head.

"Miss Montez . . . this is Miss Darlen."

"How do you do?" said Lolita Montez pleasantly. "I should have met you before. I'm ashamed of myself, really. But," she shrugged helplessly, "I was pretty well worn out and I thought I should rest before this terrible Drann got hold of me again."

Montez was so slight, so young (except for those disturbing eyes) that Jo sympathized with her, almost pitied her. She had heard that movie actresses work hard, that, considering their "life" on the screen, their salaries are not as fabulous as they seem. And now, looking at Lolita Montez, she understood this for the first time.

"This waiting must be worst of all," Jo ventured.

"You're right. I could wring Fragonet's neck."

Marsh laughed. "So that's what they're waiting for?"

"That's what we always wait for," said Montez shortly. "When Fragonet's here, then Barley is drunk. And when Barley is sober, Fragonet's gone."

"Has anybody looked for Pete?"

THE actress nodded. "Yes . . . but he won't come until he's ready." Then, in answer to Jo's incredulous expression, she added, "He can get away with it. His contract's almost up, and the other studios are clamoring for him. I wish they'd get him."

"We aren't going to stay out here home of her mother, Mrs. L. B. Searies."

Mr. and Mrs. Delos Prescott and sister of Rockford spent Sunday at the home of Mrs. L. B. Searies. The three ladies are sisters.

Elisha Morgan was in town on Wednesday.

Mr. Smith, traveling sign painter, has been visiting this town this week.

Cloy Sturtz is working in North Dakota and will be there until October 1.

On Saturday Elisha Morgan will go to Clinton to spend the night with his sister, Mrs. Martha Strawberry and family. On Sunday they will all go to Independence, Iowa, to visit George Morgan, brother of Elisha and Martha.

Favorites Seek To Halt March Of Unseeded Entries

Culver, Ind., Aug. 8.—(AP)—Favorites in the junior division sought to check the forward march of three unseeded entries today as the quarter final singles matches opened in the National Junior and Boys tennis championships.

Two Pacific coast threats, Bob Underwood and Lawrence Nelson of Los Angeles, and Marvin Wachman of Milwaukee, were the "dark horses" who had reached the round of eight and threatened the seeded brigade in today's skirmishes.

With one exception, form prevailed yesterday in the boys' singles encounters. Dick Hainline of Rock Island, Ill., was the only unseeded entry to crash the round of eight and today was to meet Billy McGeehe, New Orleans, and seeded No. 6, in one of the quarter final matches.

STEER SHY OF CCC (By The Associated Press)

Washington, D. C.—Civilian Conservation Corps officials announced that only 2,217 applications had been received for the 20,840 places open to enrollment of Illinois residents.

Less fish is eaten by the average American than by the average inhabitant of any other country.

Transatlantic wireless is 34 years old.

In the sun all afternoon waiting for Pete Fragonet," Marsh promised. "He may be able to pull that prima donna stuff on you people but he'd better not try it on me. I used to go fishing with him before he ever saw a movie camera. If he's at the Inn I'll smoke him out!"

"I wish you would," said Montez. "Every minute we sit around here is going to make Drann meaner and he's hard enough to please as it is."

When Marsh had hurried toward the Inn in search of Fragonet, the star's tone grew more bitter. "All Fragonet thinks about is Fragonet. It's a shame that one man can get away with so much—but when millions of women yell for his pictures any studio will let him run up the expenses and wear out the others in the company."

Lolita's words chilled Jo some how. "I—I can't imagine him doing it on purpose," she said slowly. "Oh, he doesn't mean to do it, perhaps. He just doesn't think. It never occurs to him that there's anyone else in the world but Fragonet."

The actress dropped her half smoked cigaret, nervously fished in her jacket pocket for another. "Two or three dimes came in this morning to play bit parts. One of them is probably a blond—which would explain where Fragonet is."

"Is he . . . that bad?" Montez nodded. "It's funny. You'd think a man with so many women after him would get sick of women. But not he. They say now he's divorcing his wife and wants to marry some girl up in this neck of the woods. Well, God help her!"

Jo laughed shakily. "You don't care much for Pete Fragonet, do you?"

"Care for him?" Lolita's eyes widened in astonishment. "I've no particular like or dislike for him. If that's what you mean."

"But you sound pretty . . . bitter," Jo ventured, keeping her eyes on the actress.

"I don't mean to sound bitter. I was just describing Fragonet—like I'd describe a car. If it had two flat tires I'd say it had two flat tires. Do you see what I mean?"

"I . . . guess so," said Jo uncertainly.

"Anyhow," went on the other, "I won't have to put up with this sort of thing forever. Maybe Fragonet will leave Atlas—or maybe I will."

"Don't you like pictures?" Jo asked.

MONTENZ smiled. "It's nice work—if you can get it. But here's one who's going to save her money and get out before she's 25. When I'm 25 I'm going to take my little girl and go somewhere where I'll never even see a picture, much less make one."

"You have a little girl?" The actress nodded, smiling quizzically. "She's four—and cute. She's never been in the publicity, so please don't say anything. I'm talking too damned much today."

Jo's heart went out instantly to this slight, harassed young girl who was behind all her glamour and her publicized beauty—fighting only for the security of her child. "You can talk all you want to me," Jo told her earnestly.

Montez shook her head. "I've said enough for one day. . . . And anyhow, here comes the star at last."

Jo turned to see Fragonet and Marsh walking down the slope from

the Inn. Fragonet was smiling, talking swiftly to Marsh, as he showed no sign of regret at this tardiness. But when he was in sight of Lolita Drann he did grin disarmingly, very like a small boy who has been caught in the jam closet.

"I took a nap after lunch," he told Drann. "Suppose I'd be sleeping yet if Doug hadn

Springfield, Ill., Aug. 8.—(AP)—Forty per cent of the \$388,999,244 appropriated by the General Assembly for the operation of state government in the current biennium will be expended for education, health and welfare purposes.

Appropriations for these three purposes total more than \$160,000,000.

Sums earmarked for education include \$26,000,000 for the school distributive fund; \$12,103,892 for the University of Illinois; \$5,139,550 for the five normal schools; \$255,780 for the state superintendent of

public instruction; \$296,944 for the Illinois school for the blind at Jacksonville; \$603,600 for the school for the deaf at Jacksonville; \$1,250,592 for aid to local school boards in the education of physically handicapped children and \$20,000 for the education of orphans of World War veterans.

Other Items Listed

A number of other items enter into the approximately \$50,000,000 the assembly appropriated for educational purposes. These include a \$400,368 appropriation for vocational purposes. These include a \$400,368 appropriation for vocational education for physically handicapped persons and approximately \$1,000,000 for library purposes.

The department of public health was allotted \$1,252,828. This money is spent largely in control work, the elimination of sources of dis-

ease, milk testing, diagnostic and biological laboratories whose facilities are used largely by local health authorities, and the gathering of vital statistics and inspection of lodging houses.

More than \$100,000,000 was appropriated to the department of public welfare or other agencies engaged in welfare work.

In this sum is included \$54,000,000 allotted to the Illinois Emergency Relief Commission for unemployment relief.

The remainder will be used for the state hospitals, prisons, homes for veterans and their children, and other activities in which the department of public welfare is engaged such as distribution of the pensions for the blind, aged, and mothers.

Building Program

Included also in this appropriation is a \$15,163,300 building program for the welfare institutions. The activities of the welfare department are many in addition to those commonly associated with it such as management of penitentiaries and state hospitals.

Charged against its appropriations are the sums allotted for the pardon and parole board, the supervision of parolees, the bureau of criminal identification, the research and education hospitals and institute for children in Chicago, the Illinois industrial home for the blind in Chicago, the maintenance of dependent children in private boarding homes, the aiding of disabled war veterans and the prevention of blindness.

The state's penal institutions—Joliet, Dwight, Pontiac, Vandalia, Menard, St. Charles and Geneva—will cost approximately \$6,318,454; old age pensions \$5,000,000; blind and mothers' pension \$1,600,000 each and the 11 state hospitals approximately \$15,000,000.

Activities such as these—education, health and welfare—take the largest amount of the money appropriated for the running of state government.

Libraries Get Help

The 269 free tax-supported libraries in Illinois will receive \$300,000 additional revenue annually for the next two years to purchase books and periodicals.

This amount was made available through an appropriation by the last General Assembly. In addition to the \$600,000 for the biennium, \$10,000 was also appropriated to pay expenses incurred in administering the act.

The \$300,000 annual fund will be allotted to libraries in proportion to the population in their respective areas. The allotments will be

Washington, Aug. 8.—(AP)—The legislative situation today in Congress:

The bus and truck regulation, Spanish War pensions, second deficiency appropriation and air mail bills are awaiting President Roosevelt's signature or veto.

The AAA amendments have been adjusted in conference after being passed by Senate and House, and now await final action by the two chambers.

The bills dealing with social security, utilities regulation, banking, TVA amendments and rivers and harbors are in conference for adjustment of differences after being passed by both chambers.

The bills for tax revision, liquor control, war profits limitation, ship subsidies and prohibition of suits under the gold clause have been passed by the House and wait Senate action.

The food and drug regulation bill has been passed by the Senate and awaits House action.

The oil regulation, Guffey coal control, and midget money bills have been passed by neither house.

made only when an approved list of books and periodicals is submitted to the secretary of state by the boards of trustees of the libraries.

The total income of libraries last year, excepting the reference libraries of Chicago, was \$3,504,620; the state library extension division said in its annual report. The receipts represented a decrease of \$246,848 compared with the income of 1933 and \$781,087 below the income in 1929.

12.6 Per Cent For Books

Of the income supplied through tax channels, 31 per cent went for salaries and 36.4 per cent was spent for operation costs, including janitor service. The remaining 12.6 per cent was used to purchase reading material.

The money appropriated by the legislature will thus increase the annual fund available for the purchase of new volumes to approximately \$650,000, or almost double the amount spent in 1934.

In addition to the 269 tax-supported libraries, there are 10 libraries which are endowed and receive no income from taxes. The 277 libraries reporting showed a total of 5,898,936 volumes last year, a decrease of 536,336 volumes compared with the 1933 total. Last year 255,279 volumes were added, a slight increase.

NELSON-ROCK FALLS BLACK TOP OKAYED

(Continued from Page 1)

Supervisor Stanley seconded the motion. This brought Emmitt, the Nelson township representative and chairman of the road and bridge committee, to his feet.

Pleads for Road

"Nelson has been left out of the spur system for years and I believe that we are entitled to this improvement. As chairman of the road and bridge committee, I would like very much to have this improvement. It was my suggestion and the remainder of the committee saw fit to include it in this program and I would appreciate very much your granting this improvement to Nelson township."

When Supervisor Emmitt had his remarks, Supervisor Avery called an aye and may vote on the motion. This resulted in 15 members favoring the "black top" project and nine opposing. Supervisor Spencer, who had opened the discussion on the location of the spur improvement and Assistant George Beede of the Dixon delegation voted for the type of surfacing county and the program was to be named while Assistant Leon Gar-

rison, E. H. Stanley, Henry L. Gehant were opposed, W. J. Rose not being present at the afternoon session.

The subject of providing county funds with which to finance the proposed WPA program was the next subject for discussion and consideration. Some members pointed to LaSalle and DeKalb counties where the program had been rejected, while others argued that employment would be provided for the unemployed of the county for a 12 month period, which in the end would amount to a reduction of expense for the county in the care of its unemployed. After long discussion Supervisor Henry Knetsch presented a motion to appropriate the sum of \$10,000 to underwrite the county's share of the obligation in the federal program, taking \$5,000 each from the motor fuel tax fund and funds not otherwise appropriated.

Sought \$5,000 Fund

Assistant Supervisor Leon Garrison sought to have the amount reduced to \$5,000, to be drawn from the gas tax account, but met with no favorable support. On the roll call on the appropriation Supervisors Mau and Hamilton and Seth Anderson of East Grove township opposed the appropriation, the motion carrying by a vote of 22 to 2. The board then voted to authorize Chairman W. F. Burhenm and County Clerk Sterling D. Schrock to sign the projects in behalf of Lee county and the program was to be delivered to the WPA district office.

ces today by Superintendent of Highways Fred Leake.

During the discussion on appropriating funds with which to insure the work for the county, it was suggested that \$5,000 would be sufficient until the regular September meeting when additional funds could be appropriated if necessary. Superintendent Leake, in response to an inquiry, stated that in his opinion no appropriation was necessary before the filing of the application. He stated that the county had about \$9,000 of motor fuel tax funds on hand over and above the cost of building the Brooklyn spur and he expected that the fund would reach the sum of \$21,000 by the first of December, from which money could be drawn in payment of the county's share of the WPA program. The board was assured that in the event that the projects receive federal approval the first work to be undertaken will be the filling of gaps in the present county highway system.

No Right-of-Way

"Route 71 is a dead issue insofar as Lee county is concerned," County Superintendent of Highways Leake announced in no uncertain terms early in the afternoon session of the board, and after the supervisors had taken action upon a report and recommendation filed by the road and bridge committee. The recommendation, which was unanimously adopted authorized the five townships involved, to borrow motor fuel tax funds from the county to be used in paying for the right-of-way. The recommendation stated

Post and Rogers in Air, Alaska-Bound

Seattle, Aug. 7.—(AP)—Wiley Post and Will Rogers, airplane cronies, hopped at 9:15 A. M. Pacific Standard time (11:15 A. M. CST.) today, presumably for Juneau, Alaska.

Mrs. Post made a last minute decision not to fly with them. She said the trip "may be too strenuous."

Ahead of Post and his passenger, along the northern British Columbia coast and over southeastern Alaska, was rainy weather, the weather bureau at the Boeing Field here said.

"The trip may be rather strenuous," Mrs. Post told airport attendants. "I expect to join Wiley, however, within a few days, going by boat."

The flying distance to Juneau, the first hop of a flight which may see Post going on to Siberia and Moscow, while Rogers leaves him in Alaska, is between 950 and 1,000 miles.
